IN education there is no challenge with greater priority than that of developing sound, significant programs of adult education.

Rapid changes in science and technology demand a constant updating of professional and technical knowledge.

The unique arrangement between our two institutions is of particular significance in that it represents an efficient use of demonstrated instructional and administrative capabilities while making an educational contribution to the medical profession.

Eric A. Walker

ERIC A. WALKER, President
The Pennsylvania State University

THE modern physician is confronted by an almost impossible task in attempting to keep up with new developments in Medicine. The great advances in medical knowledge in this century are continuing at an ever-increasing pace. Medical knowledge is doubling every 12 to 15 years. It is my feeling that this trend will accelerate. Such advances pose a serious problem for the future of medical practice. No longer can a physician graduate from medical school, read a journal or two, attend a meeting or two a year and keep up with medicine's advances. The book he bought last year delineating treatment of a certain disease may be out of date in six months because of new advances. As a consequence, continuing education for the physician in practice is more important than ever today and will continue to increase in importance in the future.

Innumerable courses reach but a few practitioners. But they represent one facet of continuing education to the physician given so that he does not have to leave his practice, or leave it only for a short time. If he can utilize these presentations and visits to the medical center, to his medical meetings, to his hospital staff activities, do his reading; seek consultation for application to patients; carry on these functions in varying degree as necessary for him, I believe he can evolve a program which will be effective. But he must be motivated to continue his learning and we are back to the basic learning process instilled in him in his undergraduate medical programs. No wonder at Jefferson we do not want to saturate the medical student with facts but want him to learn habits to continue fact gathering and interpretation all his life.

The program for practitioners is altogether different from that of the medical student. They are at various ages, with various degrees of training, various interests in different fields of medi-

cine, and are not motivated by an examination coming up for a degree or a certificate. They are not a captive audience as are the medical students. They are busily at work in practice and difficult to reach. No standard program or programs can be developed for such a group. Selective programs must be evolved for each individual and, where courses or exercises may be given for groups, these, too, must be selective.

The physician trained in 1940 was significantly out of date by 1950 if he did not make a great personal effort to keep up. And this rate of obsolescence increases every year. The revolution in medicine today makes the physician trained in 1955 have difficulty in digesting the advances in 1965. This is why we teach the undergraduate not only to learn facts but learn how to find and utilize those facts. The doctor must be forever a student.

Yet Continuing Education is looked upon by some myopic members of medical school faculties as an added burden, a program which they are not quite sure belongs to the medical school. But in large part medical education today is one long continuum. Lifelong study is our objective. Day by day the results of research must be transmitted to the people and the practitioners must do this job. The change is a constant and rapid one. Jefferson must meet this challenge or relegate itself as a teaching institution to but four to seven years of the doctor's lifelong learning process which averages 50 years. Continuing Education is part of our responsibility. We must meet this challenge.

William A. Sodeman

WILLIAM A. SODEMAN, M.D.

Dean and Vice President for Medical Affairs

CONTINUING MEDICAL EDUCATION AT JEFFERSON ITS PHILOSOPHY, EVOLUTION AND PRESENT STATUS

THE OBJECTIVE

The objective of continuing medical education "is to make it possible for each physician to use in his practice the modern medical knowledge that continuously becomes available." This quotation from a guide for educational programs was adopted and published in 1957 and again in 1960 by the American Medical Association. Further statements of objectives on augmentation and modification of an adequate initial education, the acquisition of new skills, strengthening of critical inquiry and balanced judgment have one and only one aim: To assist the physician in his demanding profession of providing the best of medical care to his patients.

THE PURSUIT

The pursuit of this objective must be active and continuing throughout the lifetime of the physician. Modern medicine is so dynamic that much of the best of undergraduate and graduate education obtained five years before is obsolete. To stem this tide of educational senescence there are medical journals, hospital staff conferences, general and specialty medical society programs and many other activities including even the hurried exchange of information at luncheon and the corridor consultation—to name only a few. All of these are of value or else they would have atrophied long ago. Still, no matter how good these educational exposures may be, they constitute, as Dryer expresses it, a *pulsus alternans* of educational opportunity.

Continuity, accessibility and convenience rank high in the personal criteria of physicians considering postgraduate educational opportunities. Continuity of the program with its implication of calendar regularity which does not disorganize the office schedule is important. Continuity with its planned coverage and opportunities to revisit subjects studied in the past serves the physician's memory better than sporadic studies. Accessibility of the program so as not to penalize the doctor who is a long distance from the centers of

Registration—an efficient business where some important data is collected about registrants.

learning is important. In other words, as far as it is possible, programs should be planned so that the doctor can obtain not only what he wants, but also when and where he wants it.

It is difficult for medical societies, governmental agencies, etc. to meet these criteria. They have many other responsibilities, which demand attention and none are organized primarily for the purpose of teaching. Lacking faculties, they turn to the medical schools when seeking academic competence in educational matters. There would seem, therefore, to be little justification for a third party between the physician student and the medical school's teaching staff. In the light of these circumstances, it was inevitable that the medical schools themselves should be called upon to extend their programs not only to undergraduates and graduates, but also to the postgraduates.

THE CONCEPT

In fact, the concept that medical schools have a responsibility to assist the postgraduate physician in his continuing education is not new. Abraham Flexner in his famous report of 1910, which revolutionized undergraduate education, discussed various aspects of postgraduate education. At that time, the inadequacies in medical education were in the undergraduate school; hence, the report was devoted largely to this area. As a consequence of this undergraduate inadequacy, most postgraduate instruction at the time was in the nature of reparative courses. The problem was the wide gap between what was known and what was taught in medical schools, and postgraduate instruction was utilized to correct the serious deficiencies.

Today the problem is quite different. Through the observance of standards set by various accreditation agencies, good instruction at the undergraduate and graduate levels is widely available. But again, there is an informational gap; this time at the postgraduate level. The escalation of new knowledge in medicine has swamped many practicing doctors. The trickle of knowledge which in 1910 created problems in the schools has become a flood which the busy physician of today cannot find time to filter and evaluate as to significance and usefulness. There always has been a lag between advances in medical science and their application in patient care. To shorten the lag time, to help the physician at the bedside, continuing education has become a matter of growing concern.

One might ask, whose concern? The answer widely accepted is that the medical schools with their academic competence, teaching skills and facilities should shoulder the responsibility. In 1957, a statement by the American Medical Association's Council on Medical Education and the Association of American Medical Colleges directly charged medical schools with responsibility for "leadership in the development of adequate opportunities for the continuing education of practicing physicians. . . ." Even before this statement, schools had been providing postgraduate instruction for physicians. In the academic year 1954-55, almost 19,000 practicing physicians attended educational programs presented by 49 medical schools. By 1961-62, attendance had risen to over 57,000 and 63 schools were active in the field.

In the assumption of a new teaching responsibility, a medical school administration must give consideration to its resources so as to avoid any weakening of its basic program. Larger schools such as Jefferson with its sizeable depth in faculty numbers and skills have a definite advantage. Given a faculty such as the one at Jefferson with its enthusiasm and proven skills in teaching and a growing depth in research, it was evident that it could become a leader in continuing medical education. In addition to enthusiasm and teaching skills, other criteria for appraising a continuing medical education program are good administration, defined goals and a comprehensive curriculum. Jefferson is certainly strong on these items; so the stage was set. Dean William A. Sodeman, a teacher with acute awareness of the problems of medical practice, made the decision to assume responsibility in this rapidly expanding field of medical education. A beginning was made.

THE BEGINNING*

The beginning of this program was actually in discussions between Jefferson and Penn State on an entirely different topic. The possibility was being considered that graduate students might be exchanged between the two institutions in order that these students could take advantage of facilities and faculties of both schools. As negotiations proceeded, it was mutually accepted that a program of continuing medical education could well succeed if the academic talents of Jefferson were combined with the administrative facilities of Penn State.

* This section was written by Dr. Samuel S. Conly, Jr., Assistant Dean.

Both institutions, equally charged with the responsibility for continuing education, recognized the need and demand for postgraduate medical instruction. Jefferson lacked the extensive administrative requirements; Penn State lacked a medical school. This possible marriage of talents seemed attractive so a trial program was planned for central Pennsylvania for the fall of 1960.

"Hypertension—A Sensible Approach to Therapy" was selected as the topic of this first seminar, a topic which would be of interest to men in all the medical specialties. The three-hour seminar included both lecture and discussion and was acceptable for American Academy of General Practice Category I credits. The groundwork for this first seminar had been laid well in advance by representatives of Jefferson and Penn State.

To present the initial seminar two faculty members from Jefferson along with observers from Jefferson and Penn State traveled first to York on the morning of November 3rd and then to Chambersburg in the afternoon where they repeated the program. The same program was again presented on the morning of November 10th in Lancaster and in the afternoon in Lebanon. The reaction of the participants was encouraging and the two institutions discovered they worked well together. The Jefferson staff was relieved of local administrative details and their discussions with physicians were exclusively devoted to subject matter. Penn State administrators discovered that conducting seminars for physicians was essentially the same as conducting programs for engineers or school teachers.

The initial experience helped formulate attitudes and a philosophy regarding further continuing medical education programs. As time went on, the philosophy underwent changes and will undoubtedly continue to change. However, the first concepts involved the following points: It was believed that practicing physicians and their communities could be served most efficiently if instructors traveled to their students rather than vice versa; it seemed to make sense that a few faculty members go into a community rather than having the physicians travel to a medical center which would temporarily reduce the local medical manpower. It was also believed that it was the responsibility of the community physicians to help organize the program by providing the educational institutions with a coherent request for service. In planning discussions, physicians were asked to identify their needs and efforts were made to satisfy these. Re-

quests from organized medical groups—medical societies, hospital staffs, county academies of general practice—were welcomed. The inclination was to conduct programs for groups in counties which are some distance from centers of medical education. The most pressing need seemed to be in rural areas.

In the fall of 1961, Jefferson and Penn State began their first full year of operating continuing medical education programs. By the end of the year, 30 community seminars had been conducted, ranging from two to six hours in duration. They were held in 14 different areas—from Erie, New Castle and Uniontown in the West; to Stroudsburg, Lebanon and Chambersburg in the East. The programs were staffed exclusively by faculty members of Jefferson.

The seminars were critically evaluated by written word and verbal surveys, and ratings and comments by persons attending were recorded and studied. These studies were of major importance in evolving future programs and approaches.

During the first full year of cooperative operation in 1961-62, 75 discrete seminars were conducted. By 1962-63 requests for seminars became so numerous that limits had to be set on the number of seminars operated in each location. However, the program was expanded somewhat and the total attendance for the full year was approximately 900. In addition to the seminars which were operated at the request of medical groups in the various communities of the Commonwealth, Jefferson and Penn State instituted programs of continuing medical education in two community hospitals.

From the very first, it was evident that a cooperative effort of this type could render a valuable, needed service.

THE PRESENT

To the present, there have been several significant modifications in the program. In the following discussion they will be considered under three major headings: (1) The Community Hospital Program, (2) Courses, and (3) Symposia.

THE COMMUNITY HOSPITAL PROGRAM

As experience was gained in the initial community programs, it became evident that it would be best to hold meetings only in community hospitals. The reason for this is simple. The community hospital facilities for teaching are better and, if possible, physicians should be oriented toward their hospital for their educa-

tional experience. An indirect but desirable gain might be that the physician would come to participate more in the other programs of the hospital and thus enrich locally staffed educational efforts.

DIDACTIC LECTURES

In the beginning, the programs presented were solely in the form of didactic lectures followed by questions and answers. There is no doubt that this format is very popular with practicing physicians. For this reason, it must be continued to a certain extent since participation in educational activities is, and always should remain, a voluntary act of the intellectually curious physician. On the other hand, psychologists have determined that learning at all levels is improved by active participation. Didactic lectures do not call for active participation. For this reason, the planning of programs now includes ward rounds, clinical case conferences, and periodic CPC's, as well as a lecture.

WARD ROUNDS

In ward rounds, the hospital physicians present their cases to the visitor and discuss with him the details of their management. By necessity, the size of the group is limited, but the active participation with the exchange of information and rationalizations can be immensely valuable. As in any ward round, the cases have ranged from the usual clinical entity where the diagnosis and management are exemplary to the problem case where new ideas are being sought. Also, as in any ward round, both the teacher and the host physician learn and broaden their experience through bilateral discussions.

CASE CONFERENCES

The clinical case conference is generally held in a room with a considerably larger audience.

The history, physical and laboratory data are presented to the visitor and the audience, and the patient is brought in for examination or demonstration. The visiting faculty member then proceeds as he does in such conferences at Jefferson. Desirably he calls upon the hospital radiologist to discuss films; the hospital pathologist to advise him on the normal ranges of laboratory data at his institution and on occasion he may seek additional information from other physicians who have been involved in the study. The potential for the exchange of ideas in such a program is evident to any practitioner, and the active participation of the local staff in the presentation is invaluable in teaching.

CLINICOPATHOLOGIC CONFERENCES

When CPC's are scheduled there must be considerable prior activity on the part of the host physician in selection of the case and the preparation of abstracts and lantern slides. The informality of these conferences is comparable to the clinical case conference and leads to a lively exchange of views between the visitor and the audience. Again, active participation of the audience is encouraged.

PEMBINE-TYPE CONFERENCES

Pembine-type conferences are held at some of the hospitals so as to vary the educational diet. This type of meeting consists of a review by the visiting faculty member and local physicians of a sequential series of charts of patients discharged with a particular diagnosis. The potential for learning in this situation is evident to anyone who has had another physician review his charts with a fine-comb approach. These meetings, however, are not designed to constitute a record review of physicians' activities *per se* but are de-

Getting it on paper for future reconsideration is a step of students of all ages.

Dinner party during the Obstetrics and Gynecology symposium.

signed to discuss in depth a particular aspect of a single disease entity, using actual cases as examples for comment.

SPECIAL PROGRAMS

At times special programs are presented at the community hospital. These are generally developed as part of a larger activity such as the observance of a "Founders Day," "Alumni Day," or "Doctors Day." Approximately three Jefferson faculty members participate, often along with local speakers, panelists and moderators. Jointly they are able to review a clinical problem in greater detail than in the usual community program where no more than two Jefferson faculty attend.

ACADEMIC VISITATIONS

Starting in 1963 and continuing into the future, community hospitals are being invited to participate in a program of two-day academic visits. These visitations are so arranged that one day of the visit is part of the regularly recurring educational program that continues throughout the academic year. On the second day, the community physicians are asked to arrange the professor's schedule and to use him in any manner that they see fit. The success of this particular day is heavily dependent upon the imaginative planning of the local host physician or the director of medical education of the hospital. Learning to deal with the medical visitor so as to milk the most from him is in itself a necessary educational experience. The first year of this type of program produced some interesting contrasts. Where there was no local planning for the visiting physician, there was confusion as to how to use his time. At the other extreme of the spectrum, the visitor's schedule was so intense that

he returned home from the visit exhausted. Indeed, one faculty member complained that he suffered from bladder distention during a large part of a visit because the schedule included no time in the W.C. By and large, however, this type of program has worked well because of the informality of much of the stay and the opportunity for many personal communications with the hospital staff.

COURSES

In the spring of 1964 another variation was introduced into continuing medical education at Jefferson. A carefully organized evening course on diabetes was presented at the College. This program was initiated in order to make available to practitioners in the general area of Philadelphia a type of educational opportunity which did not conflict with their own hospital programs. This plan was approached with some trepidation for there is so much educational activity in Philadelphia. However, the response in terms of numbers of registrants and their reaction to the quality of the course was extremely satisfactory.

During the current academic year, two courses have been given. The success of the program on diabetics in 1964 called for another endocrinology course. Apparently as a consequence of satisfaction from the previous year, the attendance was doubled and the reaction expressed in questionnaires distributed at the end of the course was excellent.

Encouraged by this response to courses in Philadelphia, it seems to be a reasonably safe assumption that a course presented in a central Pennsylvania city of moderate size would be successful. In response to a request from two hospitals, a course in fluid or electrolyte prob-

Gross Professor of Surgery and Head of the Department, Jefferson; Leighton van Nort, Officer in Charge, Population Affairs, U. S. Department of State; and Dr. Killough.

Guest Faculty: Dr. Har Jacobson, Professor of Clinical Radiology, New York University School of Medicine.

Participants in a seminar at York Hospital include (from left) Dr. Joseph F. Rodgers, Instructor in Medicine, Jefferson; Dr. Elliott L. Goodman, Associate in Clinical Medicine, Jefferson; Dr. Robert L. Evans, Director of Medical Education, York Hospital; and James P. Murphy, District Administrator, Continuing Education, Penn State.

One measure of a well-planned program—a large audience.

Listening to a discussion of tranquilizers are (from left) Dr. Fred H. McClain, Jr., Dr. Thomas R. Meley (Jeff '59) and Dr. Richard P. Magee.

Medical education is lifelong learning for speakers and audience alike.

lems was organized. The only stipulation of Jefferson was that there had to be a pre-registration which would guarantee at least 25 physicians at each class. Somewhat to our surprise this figure was easily attained, and to our amazement the first meeting was attended by 48 physicians. This course consisted of seven two-hour classes incorporating basic material with clinical discussions and homework. Surveys after completion indicate not only that the series was well received but that there is a desire for an extension of this type of program.

Up to this point the programs discussed have been of two general categories: (1) The Community Hospital Program; (2) The Courses. Both of these educational programs are directed primarily to physicians in Pennsylvania. Except for nearby physicians in New Jersey and Delaware, travel to classes of short duration is impractical. A better rounding of the program would include specialty conferences of two or more days' duration with extensive out-of-state publicity. For programs of this magnitude there could be supplementation of the Jefferson faculty with well known teachers from other institutions both in the United States and abroad.

SYMPOSIA

In 1962 a symposium on "Education in the Community Hospital" was presented. This was a very successful and rewarding experience for those who attended; therefore, in 1964 it was decided to expand this phase of Jefferson's program. In line with the concept of proceeding cautiously into the venture of major symposia only two were scheduled. One was devoted to the problems of internships in the community hospital and the second program was on oncology. Both came off well and physicians from more than 20 states attended.

Encouraged by the success of these symposia, five programs were arranged for 1965. Two have been presented at the time this article is written: "A Symposium on the Stomach and Its Sphincters" and "The Clinical Management of Human Reproductive Problems." The first, presented by the Department of Radiology, had 144 registrants; the latter, by the Department of Obstetrics and Gynecology, had 351. To these totals should be added approximately 50 and 100 respectively to include the large turnout of residents from Jefferson and other institutions. Questionnaires completed by the registrants have indicated great satisfaction at the high quality of

these programs. Advanced registrations and correspondence addressed to the Office of Continuing Education suggests that the remaining symposia on "Vulvovaginal Disease," "Recent Advances in Surgery," and "The Care of the Epileptic" will be equally well received.

The rather intense nature of these symposia require augmentation of the Jefferson faculty with physicians of note from other institutions. During the current year, teachers from 24 different medical colleges and hospitals will join our faculty on a temporary basis. Their names are a Who's Who of medicine and they represent institutions such as the Radcliffe Infirmary (Oxford), Johns Hopkins, the University of Michigan, the University of Montreal, L'Hospital Bous-sais (Paris), the University of Erlangen (Germany), Harvard, U.C.L.A., the Royal Victoria Hospital (Canada), Mayo Clinic, and so on. The experience not only to the post-graduate educational program but to Jefferson in being host and exchanging thoughts with physicians of diverse origins has significance which is not directly measurable.

Future symposia of the calibre given, inevitably will reflect favorably upon Jefferson, its faculty, alumni and students. To extend the impact of these major programs, the date-savers and final programs are mailed widely. In fact, as many as 82,000 pieces of literature have been mailed to publicize a single symposium. In addition, advertising space is purchased in selected medical journals and advance news releases are sent to the more significant newspapers in the State. This somewhat sizeable operation will be limited gradually in the future, but presently it is necessary to get Jefferson's position in the field of continuing education bruited widely. To a degree, this helps in attendance, but more important, it displays the high calibre of Jefferson's programs.

ADMINISTRATIVE FACTS

MAN-HOURS

The total of man-hours spent in a program of this magnitude is difficult to even approximate. In fact, one is not quite certain as to what sort of man-hours should be considered. Much of the activity can be classified as creative thinking. Since creative thinking requires no mechanical devices and ideas are added bit by bit and often at widely separated intervals, timing is out of the question. Even the question of time spent by the instructors in preparation for the programs would

Dr. Joseph Medoff, Assistant Professor of Clinical Medicine, Jefferson, discusses case histories.

Dr. Medoff holds an informal discussion with interns.

It's fun when the program is a success. Dr. Killough and Dr. Goldfarb assess results.

be difficult to measure accurately. The time spent in preparing brochures, printing, settling upon mailing lists, arranging for meeting spaces, audio-visual aids, coffee breaks, accounting, photography, completing phone calls, correspondence, typing and many other details are also unknown quantities. One fact is certain, this is a major educational effort in reply to a major educational demand.

FINANCES

As in any educational activity, the financing of a program is a *sine qua non* for its initiation and continuation. In the beginning, all of the money for support of this program was obtained by Jefferson and Penn State in the form of a grant. In planning the budget for each program, the overhead has been so calculated as to cover all the items including the cost of faculty and administration. In fact, at no time has continuing education drawn funds from the budgets of the two sponsoring institutions.

The Community Hospital Program and the Courses became self-supporting in 1963-64. Before this time, support from grants had been sought and obtained. However, it was felt that the continuing education program was apt to remain a hand-to-mouth affair as long as it was financially dependent upon outside assistance. Thus in 1963 contractual agreements were developed with the various hospitals which shifted the financial arrangements to them. This has worked quite successfully and again has been incorporated into the subsequent planning meetings with the participating hospitals. The Course Program has been entirely self-sufficient from the very start.

The Symposia are not yet self-supporting. As symposia take form and before they are announced publically, grants are obtained to guarantee that there can be no deficit. However, since almost all of the programs have included a registration fee, it means that the grant request can be worded in the nature of a guarantee that the grantee will pay only the difference between the actual cost of the program and the amount collected at registration. This makes the arrangement more attractive to supporting groups. On occasion the collected fees have covered the entire cost of a program. In such cases, the organizations guaranteeing support have received official credit for their aid, although the program in fact cost them nothing. Should this trend continue, the symposia may also come to require no grant support.

ACCREDITATION

Accreditation for programs in continuing medical education is now being considered. The final development of the mechanics for this have not been completed by the A.M.A. There are, therefore, no officially accredited programs, but Jefferson already has made its application for accreditation. In the meantime, the programs are listed in the annual continuing education issue of the August J.A.M.A.

THE FUTURE

The future of Continuing Education is most promising. Already the joint program of Jefferson-Penn State is successfully fulfilling its obligation to practicing physicians. In 1963-64 there were 4,976 registrants at the various programs. The program is of a size which compares favorably with those few institutions which have been in the field for a much longer period of time. The quality of programs is good to excellent according to questionnaires completed by participating physicians. Still, there is little doubt but what there will be modifications in the future.

Already there is a trend in the Community Hospital Program toward the consideration of topics in depth over a series of several meetings. This is regarded as more effective than single programs devoted to a variety of topics. Since this modification does not increase the work load on the faculty, it is being encouraged actively. No doubt in time this will grow into the occasional presentation of short courses at the community hospital. The total number of hospitals in the program, however, will not vary significantly from the present list of 21 hospitals.

The number of Courses for physicians to be presented at Jefferson will expand probably to a total of five or six each year. This will be growth in response to requests from physicians in practice and from faculty members who themselves wish to extend their contacts to regional physicians.

Symposia for 1964-65 will total five. The number tentatively planned for 1965-66 is ten. One of these will probably be classified as a conference rather than a symposium since attendance may be by invitation only. To go beyond an annual total of five to ten major programs of two or more days' duration is not contemplated at present.

Other means of reaching the physician are always under consideration. Recently Audio-Digest

has begun recording a significant proportion of the symposia. Where this is acceptable to the faculty, it is encouraged because it is a good means of furthering the already excellent professional reputation of Jefferson. It is not believed to detract from attendance.

The possibility of publishing some of the symposia in monograph form is considered at every planning session. These instant books as prepared by other groups are often poorly organized and do not read smoothly. The material presented is out-dated almost by the time editing, publishing and distribution is accomplished. Still the possibility is intriguing. Organizing the symposium to follow the lines of a text, careful editing and utilization of a well known publishing firm may solve the problems. To wet our feet in this, one of the symposia to be presented in 1966 will be published. Should this venture prove successful, it probably will be followed sporadically by other publications.

Various electronic aids are under constant review—television in particular. Financial support is generally available on a grant basis, but most of it can be obtained for only a short period of time. It is virtually impossible to collect fees from a TV viewer; hence, the possibility of such a program becoming self-supporting is slim. The costs are huge and the value of television in teaching the postgraduate physician are far from being clear. In additions, the taping of a one-hour program by a faculty member requires a considerable team of professional broadcasters and many hours of repeated filming. None of these facts encourage leaping into this medium. The present attitude is to wait and watch the progress of other medical schools experimenting with television.

The future will also include studies on the effectiveness of the educational program. Planning already is actively afoot. A protocol for a study of several years' duration is being developed jointly by Jefferson and a governmental agency. If it comes to fruition, it will be a unique contribution to the whole field of postgraduate education. No doubt other research projects will be developed from time to time. In fact, the need to communicate the facts of the present program in a national publication are evident.

PEOPLE BEHIND THE PROGRAM

A discussion of the program, its objective, philosophy, past, present, and future would be cold indeed without reference to those who have

Photo shows (from left) Floyd Fischer, Director, Continuing Education, Penn State; E. L. Keller, Vice-President, Penn State; and Newton O. Cattell, Assistant Director, Continuing Education, Penn State.

The symposium about to start, 42,000 brochures printed, and a mistake in spelling is discovered. Dean Sodeman, Mr. McMeekin, and Dr. Killough confer.

Officials at medical seminar in Altoona include (from left) Dr. Joseph M. Stowell, Director of Medical Education, Altoona Hospital; Dr. Richard M. Denny (Jeff '33); Dr. James B. English, host for the seminar; Dr. Medoff; Bernard F. Carr, Administrator, Altoona Hospital; and Richie Lucas, Seminar Coordinator and Assistant District Administrator, Penn State.

contributed. It might never have started without the push from Dean Sodeman. It would never have continued without his support and that of the entire faculty of Jefferson. To date, not a single faculty member has declined to assume his fair share of the teaching responsibility! This is a unique aspect rarely enjoyed in setting up the curriculum of any teaching program. Dr. Samuel S. Conly, Jr., the Assistant Dean, skillfully managed the program in its infancy and has maintained the steady interest of a good family physician in the years of growth and maturity. On the side of the Pennsylvania State University there has and continues to be enthusiastic support from President Eric A. Walker, Vice President E. L. Keller and Mr. Floyd Fischer, who is the director of their program on continuing education. In addition, there are many of their representatives "in the field" who contribute invaluable

services. To keep our arrangements between two complex institutions in strict order, my chief contact is through Mr. Newton Cattell, Assistant Director of Continuing Education at Penn State. Together we have reviewed all aspects of our joint program, visited all of the hospitals annually and discussed in depth new ideas for improving this service to the practicing doctor. For me it is a rewarding and enjoyable experience to work with a helpful administration, an outstanding faculty and a considerable group of physicians who are practicing lifelong learning.

JOHN H. KILLOUGH, Ph.D., M.D.
*Assistant to the Dean,
Associate Professor of Medicine*

Alumni Represent Jefferson

ALUMNI have once again graciously consented to their Alma Mater's request to act as Jefferson's representative at various college inaugural activities.

Dr. Byrd F. Merrill, Class of S'44, represented Jefferson at the inauguration of Dr. Jacob J. Hartstein as the first President of Kingsborough Community College of the City University of New York on March 25. Dr. J. Treacy O'Hanlan, Class of J'44, represented Jefferson at the inauguration of Dr. Wayne Frederick Geisert as President of Bridgewater College, Bridgewater, Va., on April 3. Dr. Edward I. Salisbury, Class of '15, attended the inauguration of Dr. Clifford Lee Lord as President of Hofstra University, Hempstead, New York, on April 28. And on May 13th Dr. Morris Amateau, Class of '22, was present at the inauguration of Dr. Samuel Brookner Gould as President of the State University of New York, New York City.

SAMA Voted Outstanding Chapter

THE Jefferson Medical College Chapter of the Student American Medical Association, which was headed in 1963-1964 by Dr. Alfred J. Martin (Jeff '64), was voted one of the ten Outstanding Chapters in the national, its citation reading: "For its ever-expanding sphere of activity and its conscientious concern for the welfare of its members." Jefferson's was the only Pennsylvania Chapter so honored.

Notice from Cardeza Foundation

THE Charlotte Drake Martinez Cardeza Foundation at Jefferson is conducting a study of red cell production in hereditary spherocytosis. Patients with this disorder will be admitted to the Clinical Research Center at Jefferson Hospital and studied before and after splenectomy. This investigation will be greatly helped, if patients with hereditary spherocytosis, in need of splenectomy, are referred to the Cardeza Foundation, attention of Dr. Allan J. Erslev, WALnut 3-1100, Extension 331.

THANK YOU, DR. WILLAUER

*Gathered around the portrait are (from left)
Dr. Willauer, Dr. Burnett, and Dr. Parkinson.*

“ONE has a rare opportunity in a lifetime to have a teacher, an advisor, a taskmaster, and a genuine friend all wrapped up in one man. Many of us here today have had this unique experience in our relationship with Dr. George Willauer and we are gathered here to say thank you, Dr. Willauer.” With this tribute, Dr. P. Victor Sencindiver (Jeff '52) opened ceremonies in the Clinical Amphitheatre on April 12, marking the presentation of Dr. George J. Willauer's portrait to Jefferson Medical College. The portrait was commissioned by a group of men who trained under Dr. Willauer.

“I am very proud and happy to be here this afternoon and take part in these ceremonies for an old and beloved friend,” commented Dr. John H. Gibbon, Jr., in his introductory remarks. “I took George Mueller's position as Professor of Surgery and I was a little younger than a couple of the men on the staff, but Dr. Willauer and Dr. Walkling were admirably loyal and never wavered in what we were trying to do on B service. They continued this loyalty when services were united in 1956.

“One of Dr. Willauer's chief characteristics is that he is devoted to his patients in a way that some of us perhaps are not. He will never hesitate to take the time and trouble to do all the minutiae about the care of a patient, which many of us tend to relegate to others.” Dr. Gibbon then introduced Dr. W. Emory Burnett, a close friend and classmate of Dr. Willauer's. Dr. Burnett held the Chair of Surgery at Temple University Medical School from 1944 until this past summer when he became Emeritus. He has held many distinguished offices having been Vice President of the American College of Surgeons and President of the Philadelphia Academy of Surgery.

“It might alarm you to know that I could talk about the fabulous George Jacob Willauer forever,” commented Dr. Burnett. “However, out of consideration of your health and these hard seats, which parts of me still remember, I will try to restrain myself.

“Dr. Willauer was born in Stockertown, Pa., on September 11, 1896, of good and durable German stock. In 1913 he entered Franklin and Marshall where he worked and played vigorously and showed diverse interests. In 1917 he left college to join the Army shortly after the U.S. entered the First World War on April 6. He wangled a leave from the Army at Commencement to receive his B.S. degree. Serving first in the 26th Infantry, later the 12th Cavalry, his thoroughness and proficiency led to his becoming a drill master for recruits while he was still a Private.

“He entered Jefferson in the Fall of 1919, when I first met him. Practically all of us were just out of the military service, but George was the shining example of ‘good soldier’ with neat, well-pressed clothes, shining shoes, and precision of movement.

“He was a conscientious student. He didn't participate in the usual target practice at the heads of those sitting in the front row, using peanuts, paper wads, and other missiles, nor did

he join the front row recipients. He questioned the propriety of our passing up over our heads to the back of the room and down to the front again a loudly protesting and very unpopular instructor in the chemistry department. He was one of the 30 per cent in the large class of 180 freshmen who passed without a condition."

Dr. Burnett spoke of their association with AKK medical fraternity, where Dr. Willauer made many contributions to its progress. He served as manager of the dining room, was instrumental in the purchase of AKK's present home across from the Daniel Baugh Institute of Anatomy, and was President of the society in his senior year.

"Upon graduating," Dr. Burnett continued, "Dr. Willauer was enthusiastically chosen by the staff for the coveted 27 month Jefferson internship. Here we worked like beavers. There were only 13 interns and no residents, except the chief resident, for 500 beds and in our second year we inherited another 100 beds in the newly-opened Samuel Gustine Thompson Building.

"George with his usual perception and thoroughness would study each service he was to enter and the idiosyncrasies and desires of the chiefs on that service. His patients loved him and his chiefs commended him and gave him much more responsibility, opportunity and operating than most interns received.

"During his internship in 1923 he married his long time sweetheart, the charming Mary Eshelman. He has been a loving and considerate husband and they have been an effective and happy team for 43 years. He was a good father and derived great satisfaction from the development and accomplishments of his children. The lovely Ellen, now Mrs. Roger Decker, has, among other things, made him a doting grandfather. George, Jr., very wisely avoided the frustrating life of a doctor of medicine and has become a brilliant liberal arts teacher.

"After a year of postgraduate study in Europe, George returned to the surgical department at Jefferson where he has established an enviable reputation. This developed from his unusual ability, hard work far beyond the call of duty, and the projection of his marvelous character

The Willauer family (from left) includes grandson Thomas Decker, son-in-law Roger Decker, son George, Jr., daughter Ellen, and Mrs. and Dr. Willauer.

into the conduct of patient care adhering to the high standards he set for himself and all others who were concerned with caring for his patients.

"George took a great interest in the beginning of surgery of the chest and helped to discover and formulate the rules and techniques for its increasing success. He became especially expert in the surgery of tuberculosis of the lungs and its many serious complications. This type of surgery was the most difficult and ticklish of any of the diseases in the chest. Over more than 30 years he was instrumental in restoring to health countless patients at Eagleville Sanatorium, Pine St., and the Barton Memorial division of Jefferson.

"He has always been extremely accurate in reading character and honesty. This might be illustrated by the occasion when a surgical patient of his with a disturbed psyche kept threatening to jump out of the hospital window. Finally George took him to the window, opened it, observed that the six floor height should be adequate, and offered to help him up on the window

sill. The patient's bluff promptly collapsed, and he never mentioned jumping again.

"There is hardly a Jefferson student of the last 25 years who does not remember some of the sound principles and practical applications he impressed upon them with his lucid and colorful explanations. Most of them also were inspired by his high standards of excellence and regard for the patients' welfare and his impatience with those who were not similarly motivated. One of his tricks to keep them alert and receptive was to call any inattentive one which his sharp eye detected into this pit and have him make the examination and express his ideas of management. Needless to say, this kept attention at a high level. His teaching has become legendary. Naturally the surgical residents and younger staff surgeons have been more intimately associated with and longer exposed to his teaching and example and they admire him even more. The reason for this happy ceremony is that Dr. Sencindiver and a group of others with such op-

portunity wish to present a token of their appreciation and have had this portrait made.

"In the early years of his practice George's philosophy included not only helping his chiefs with their ward and outpatient services but being always available to cover their patients when they were away, ill or even night or holiday calls. Consequently he took no vacation for seven years. At this time his health broke down and he spent three summer months in bed. Late in August, Dr. William Parkinson, the Dean who made Temple a good medical school, Dr. Newton Wyman, a surgical resident whose father had a delightful lakeshore cottage in Lakewood, Maine, and I dragged the emaciated George from his sick bed, packed him in the back seat of Parkie's sedan and took him to visit the Wymans in Lakewood. There good food, companionship and increasing amounts of recreation, later including before-breakfast swims in the cold lake, made George blossom like a well fertilized flower.

"I believe it was then he learned the value of vacations in preserving health and the strength needed for his arduous schedule. He learned this lesson well and has progressively increased the amount of vacation to two to three months a year. This enabled him to revive his interests in fishing and in hunting various types of game. Not only has this given him health and pleasure, but as usual, he has spread this pleasure among his friends with elaborate dinners built extensively on game he has brought in, prepared by himself or under his direction and garnished with sauces of his own devising. The results make gourmets rock with delight. He has fished all the rivers in Maine, many in New Brunswick, and has plans for this summer to invade Ireland to see if their fish are any smarter.

"It is a pleasure to tell his friends of some of the sidelights and to be here when his residents crystallize in a portrait one of Jefferson's best traditions. He is one of the finest and most lovable men I know."

Dr. Sencindiver with the aid of Master Thomas Decker, Dr. Willauer's grandson, then unveiled the portrait, which was painted by Erik Haupt, whose work graces every state on the Eastern seaboard from Canada to Florida.

The portrait was accepted on behalf of the College by Dean Sodeman, who said, "I think you can all realize in just a glimpse at this portrait its importance in our collection because it represents a great Jeffersonian. I think it's particularly gratifying to all of us to realize that a group who trained under Dr. Willauer spontaneously came forward to present this portrait of Dr. Willauer to the College. It is a tribute to Dr. Willauer and to Jefferson."

Dr. Sencindiver then called on Dr. Willauer who said, "I have never seen so many of my friends gathered in one place in all my life and doubt that I will ever have the same opportunity again. I must thank my lads for giving me this afternoon and for the winter. What an afternoon! What a winter! I have never known anything like

it. First Ferguson wasn't around and the instrument man wasn't around.

I could not stand here before you without acknowledging my eternal gratitude to Burnett and Bill Parkinson for having saved my life in '32. They showed an unselfishness that is hard to beat. Those two bachelors-about-town sold their Pierce Arrow convertible, bought a Buick sedan, put me in the back of it, and took me to Maine to recover my health. That was a great epoch in my life and this afternoon is another one. If I were a singer I would sing that old song from Oklahoma, 'I've got a wonderful feeling, and everything's going my way,' but since I can't sing, I will simply say thank you from the bottom of my heart."

Newark Ear and Eye Infirmary Honors the Late Dr. Hughes

THE Newark Ear and Eye Infirmary has paid tribute to the late Dr. Lee W. Hughes, Class of 1916, in naming the department of Neuro-Muscular Anomalies in his memory. At a meeting of the Staff of the Newark Eye and Ear Infirmary on May 1, 1964, the following Resolution was unanimously adopted and incorporated in their minutes.

WHEREAS, on January 25, 1964, it pleased Almighty God in his Infinite Wisdom to take from us our colleague and friend,

LEE WESTLAKE HUGHES,

And WHEREAS, Lee Westlake Hughes, Doctor of Medicine, Ophthalmologist, was appointed a member of the Medical Staff of the Newark Eye and Ear Infirmary in 1921 as an Assistant Surgeon in the Eye Department, and having served with distinction was appointed Attending Surgeon in 1949, and

WHEREAS, throughout his service his main interest in Ophthalmology was in the field of anomalies of the extra-ocular muscles, and

WHEREAS, this interest led to the development of special skills in the management of strabismus in the eyes of children and the development of a clinic in the Newark Public School system for the care of amblyopic and cross-eyed children, and
WHEREAS, his work led to the advancement of our knowledge of amblyopia and of strabismus and was a constant stimula-

tion to the staff men in consideration of this subject, and

WHEREAS, the achievement of this program has brought distinction and recognition to the Infirmary as an outstanding institution in this field of endeavor, and
WHEREAS, Dr. Hughes supported the Infirmary with loyalty and distinction bringing prestige to this hospital during his entire career, and

WHEREAS, Dr. Hughes' interest and service culminated in the development of an outstanding program for the study of strabismus, the teaching of this subject, the care of strabismic patients in the Newark Eye and Ear Infirmary, therefore be it
RESOLVED, That the present facility developed at the Newark Eye and Ear Infirmary for the study and rehabilitation of strabismic and amblyopic patients be named the LEE WESTLAKE HUGHES DEPARTMENT OF NEURO-MUSCULAR ANOMALIES.

Dr. Anthony M. Sellitto, Class of 1933, who was named to head the Department, says of Dr. Hughes: "Dr. Hughes was one of our loyal Alumni and he served extremely well as Co-Agent for the Class of 1916 in Annual Alumni Giving. He endeared himself to all. Those of us who were fortunate enough to be taken under his wing learned considerably from his vast knowledge of his specialty, Ophthalmology, and, in particular, Ocular-Muscle Anomalies."

A Program of Love

THE Philadelphia Center for Older People, a United Fund Agency, operating on a shoe string budget, had occupied tiny quarters at 921 North 6th Street since 1952. Last fall the Center accepted the offer to purchase larger quarters at 1340 Lombard Street, and approximately 400 members, aged 60 plus, set to work to make their own contribution to their new quarters.

Deciding that \$1000 was needed to outfit one room properly, the members, some who are receiving aid from the anti-poverty program, began their fund raising. They held penny parties, auctions, bake sales, slide shows, a bazaar, and a rummage sale, and contributed as much of their own money as they could spare. Achieving the money was only half the battle; they then set to work with energetic zeal wall-papering and painting their new main meeting and classroom. The entire project took the members only six months to accomplish.

The six months of hard work was culminated on March 8th at ceremonies dedicating the room to Dr. John N. Lindquist, Assistant Professor of Clinical Medicine, and head of Geriatrics at Jefferson. In honoring Dr. Lindquist, Mrs. Ella Vigue said, "I have been given the signal honor of making this occasion a memorable one in the progress of attaining these new quarters for the Philadelphia Center for Older People.

"On behalf of all the members, the staff and our Executive Director, Mrs. Jean Fisher, as well as our dedicated Board members, without whom this whole project would not have been possible, it is my privilege and pleasure to present to you, Doctor Lindquist, this meeting room as our expression of love and respect for all your efforts in our behalf.

Photo by Philadelphia Daily News

Mrs. Ella Vigue, representing the Philadelphia Center for Older People, presents the key to the new meeting room to Dr. Lindquist.

"For four years or more you have been unselfishly serving the Center with your heart and mind and hands. Besides arranging Geriatric service for our members, at the Jefferson Hospital, where hundreds of our people have been served, and some continue to attend, you have stormed every place and person who might be of service to you in your efforts to bring better physical and social well being to our older people. Any service from City, State or Washington that might possibly be available, you have investigated, and if possible, you will see that we are benefited.

"This has been a program of love. You should hear how your name is mentioned in our groups. Like a loving pastor over his flock, you are revered and respected, and this has been a most interesting project planning this surprise for you. Excitement ran high, and many hours of thought and labor have gone into it. May you enjoy many happy and profitable hours here, and may God continue to bless all your hopes and efforts."

COLLEGIA MEDICA SQUIBB

(From left) Dr. Sodeman and Mr. Stock admire artist Ben Eisenstat's work.

A LONG-RANGE plan to create a collection of original oil paintings of the 83 accredited four-year American medical schools was inaugurated on March 2nd with the unveiling and presentation of a painting of the facade of Jefferson Medical College to Dr. William A. Sodeman, Dean and Vice President for Medical Affairs. The project under sponsorship of E. R. Squibb & Sons, New York pharmaceutical manufacturer, is known as "Collegia Medica Squibb."

The painting depicts the main entrance on Walnut Street and is the work of Philadelphia artist Ben Eisenstat, Associate Professor at the Philadelphia Museum College and an Instructor at the Museum of Art. Dr. Sodeman felt that this particular view captures the structural individuality of the school and is the one aspect of the building best remembered by every Jefferson graduate.

The presentation was made at a luncheon held

at The Racquet Club of Philadelphia. Participating, in addition to citizens of prominence in education, government, and medicine, were Mr. James M. Large, Chairman of the Board of Trustees of The Jefferson Medical College and Medical Center; Mr. William W. Bodine, Jr., President, The Jefferson Medical College and Medical Center; Mr. Fred J. Stock, Vice President of Olin Mathieson Chemical Corporation and General Manager of the Squibb Division; and George S. Squibb, Vice President for Marketing.

Mr. Stock, in addressing the luncheon gathering, said, "The Bicentennial of Medical Education in America is being celebrated this year. Squibb offers the 'Collegia Medica' in recognition of the world's greatest system of medical education."

Mr. Squibb, in presenting the painting to Dr. Sodeman, commented that it is "only natural

that this great Philadelphia institution which has graduated more medical degrees than any other American medical college—over 20,000 in all—should be chosen as the first subject of this enduring program. It is also natural,” he continued, “that we at Squibb are justly proud that our founder—my great grandfather—Dr. Edward Robinson Squibb received his Doctorate of Medicine at Jefferson over a century ago.” (Dr. Squibb was graduated from Jefferson in 1845.)

Photographs of this and future paintings will appear in a series of full-color three-page spreads in the *Journal of the American Medical Association*, the *Journal of Medical Education*, *New Physician*, and the official state medical associ-

ation journals of the states in which the medical schools are located.

In addition, Squibb will mail to each graduate of the individual medical schools a color reproduction of the painting, suitable for framing. The “*Collegia Medica*” program is under the supervision of John J. Cunningham, formerly Director of the National Sculpture Society and a trustee of the Hyde Collection of Fine Arts.

The program was launched after consultation and discussion with the three organizations most intimately concerned with medical education—the American Medical Association, the Association of American Medical Colleges, and the Student American Medical Association.

Mr. Bodine chats with City Health Commissioner Dr. Norman H. Ingraham

Mr. Squibb addresses the luncheon gathering. At his right is Paul D'Ortona, President, City Council.

PROMOTIONS, NEW APPOINTMENTS, AND RESIGNATIONS

PROMOTIONS

IN MIN YOUNG, M.D., from Research Associate in Otolaryngology to Assistant Professor of Otolaryngology.

LEROY NEWMAN, M.D., from Instructor in Pediatrics to Associate in Pediatrics.

AMIR H. SHAHANDEH, M.D., from Assistant in Anesthesiology to Instructor in Anesthesiology.

APPOINTMENTS

HENRY S. BRENNAN, B.S., M.S., D.D.S., Research Associate in Pediatrics (Dentistry).

GEORGE BEREZNICKI, M.D., Instructor in Medicine.

JOHN L. GREEN, M.D.C.M., Instructor in Pediatrics.

LYANA LOUISE SHUSTER, B.A., M.D., Instructor in Otolaryngology (Audiology).

JAMES W. SAPP, JR., M.D., M.S. (Psychiatry), Instructor in Psychiatry.

MARIUS PETER VALSAMIS, A.B., M.D., Instructor in Neurology (Neuropathology) and Instructor in Pathology.

JAY A. WENGER, B.A., M.D., Instructor in Radiology.

CHARLES M. ALEXANDER, M.D., Assistant in Ophthalmology.

PHILIP L. DELONG, A.B., M.D., Assistant in Anesthesiology.

FORREST C. EGGLESTON, A.B., M.D., Research Fellow in Surgery.

SYED ABDUS SALAM, B.S., M.S., Research Fellow in Microbiology.

TERMINATIONS AND RESIGNATIONS

THOMAS R. HOUSEKNECHT, A.B., M.D., Research Associate in Psychiatry.

HERBERT LIPSHUTZ, A.B., M.D., Associate in Surgery.

KESHAB DUTT PANT, B.A., M.S., Research Associate in Microbiology.

BALEKUDRU G. ACHAR, D.M. & S., M.B.B.S., Instructor in Surgery.

ARNOLD A. BANK, A.B., M.D., Instructor in Neurology.

WILLIAM K. GORHAM, III, A.B., M.D., Instructor in Surgery.

W. WILSON WREN, B.A., M.D., Instructor in Psychiatry.

ROHLO ANDREA ARDIZONE, A.B., M.D., Assistant in Surgery (Plastic).

WILLIAM D. BONATTI, B.S., M.D., Assistant in Ophthalmology.

DOROTHY L. L. MATHOT, B.A., M.Ed., Assistant in Psychiatry.

VU QUI DAI, M.D., Research Fellow in Microbiology.

MOHAMMAD RAHMAN, B.B.S., M.P.H., Research Fellow in Microbiology.

MARTIN F. TANSY, Ph.D., Research Fellow in Physiology.

GERARD J. MCGARRITY, B.S., Teaching Fellow in Microbiology.

DEATH

RALPH C. HAND, B.S., M.D., Associate in Orthopedic Surgery.

WILLIAM H. SCHMIDT, M.D.

Associate Professor of Physical Therapy (Honorary)

April 15, 1965

News of College Departments

ANESTHESIOLOGY

DR. LOUIS J. HAMPTON, Professor of Anesthesiology and Head of the Department, was discussant of a paper entitled "Clinical

Experiences with Deliberate Hypotension" presented at the International Anesthesia Research Society meeting, March 29th in Washington, D. C. On April 15th he discussed "Atropine and Antiquity in Anesthetic Medication" at an Anesthesia Seminar at the Hospital of St. Raphael, New Haven, Conn. Dr. Hampton and Dr. DONALD L. CLARK, Associate in Anesthesiology, attended the Association of University Anesthetists in Philadelphia on February 11 through February 13.

DR. SANDRA DEUTCHMAN, Instructor in Anesthesiology, attended the Conference on Respiratory Care in Miami Beach, Florida, in January 1965.

DERMATOLOGY

DR. JOHN F. WILSON, Associate Professor of Dermatology, attended the meeting of the American Dermatological Association, February 25 to March 2, in Boca Raton, Florida. From there Dr. Wilson flew to Mexico City where he addressed the Department of Dermatology of the Mexico City General Hospital on "Nonvenereal Diseases of the Female Genitalia" on March 4. On March 5, Dr. Wilson addressed the Mexican Academy of Dermatology at the Tropical Disease Institute on "Problems in Vulvar Leucoplakia." On March 9th Dr. Wilson spoke before the Departments of Dermatology and Internal Medicine of The Social Security Institute on "Nonvenereal Diseases of the Male Genitalia."

MEDICINE

The Cardeza Foundation sponsored an evening session on Blood Coagulation, arranged by the Section of Biological and Medical Sciences, New York Academy of Sciences on March 8, 1965. Two papers were presented: "Interaction of

Phospholipid with Lipoproteins, with Serum and Its Proteins and with Proteolytic and Non-Proteolytic Enzymes in Blood Clotting" by DR. LOUIS A. KAZAL, Associate Professor of Medicine (Research Hematology), and "A Theoretical and Experimental Approach to the Study of Blood Coagulation" by Dr. Kazal and DR. G. F. GRANIS, Research Associate in Medicine (Biochemistry). Approximately 20 scientists were invited as guests of the Academy for cocktails and dinner which preceded the scientific session.

DR. ROBERT I. WISE, Magee Professor of Medicine and Head of the Department, participated in the Institute on the Control of Infections in Hospitals at the University of Michigan, March 1-3, 1965. Dr. Wise spoke on "Infections in Hospital Patients—A Historical Recapitulation." He also participated in the New Orleans Graduate Assembly, March 8-11, where he spoke on "Treatment of Fever," "Boils as a Familial Problem" and "Selection of the Antibacterial Agent of Choice." On April 6th he spoke on "Faculty Interrelation in a Medical School in America" at the Fourth Annual Forum for International Medical Scholars at the Airlie House in Warrenton, Va.

DR. C. WILMER WIRTS, Professor of Clinical Medicine, participated in a symposium on "Diseases of the Pancreas" at the Bloomsburg General Hospital, Bloomsburg, Pa., on February 3; presented "Gastritis: A Medical Dilemma" at a symposium on the Stomach and its Sphincters on February 15; and, presented "Malabsorption Syndromes" at the Veterans Administration Hospital, Philadelphia, on March 11.

DR. DAVID W. KRAMER, Associate Professor of Medicine, Honorary; DR. EDMUND L. HOUSEL, Assistant Professor of Clinical Medicine; DR. JAMES W. DALY, Associate in Clinical Medicine; and DR. JOHN J. KELLY, Instructor in Medicine, were honored by the Committee on Awards of the Angiology Research Foundation on May 4, 1965, at the Philadelphia County Medical Society.

DR. FRANZ GOLDSTEIN, Assistant Professor of Medicine, spoke on "The Interpretation and

Clinical Value of Enzyme Studies in General Medicine" during the 25th Anniversary Program of Nazareth Hospital on March 10.

DR. WILLIAM FRAIMOW, Assistant Professor of Medicine, and DR. FRANK J. SWEENEY, JR., Assistant Professor of Medicine, participated in a medical seminar at the Williamsport Hospital on February 17. The topic of discussion was "Early Obstructive Emphysema and Newer Antibiotics in Pulmonary Disease."

The 316th meeting of the Eastern Pennsylvania Branch of the American Society for Microbiology was held on Tuesday, February 23, at the Hospital of the University of Pennsylvania. The scientific program included speakers from Jefferson, Temple Medical School, and Philadelphia General Hospital. DR. FRANK J. SWEENEY, JR., spoke on the "Clinical Aspects of Staphylococcal Infection" and Dr. Wise participated in the discussion which followed.

NEUROLOGY

DR. BERNARD J. ALPERS, Professor of Neurology and Head of the Department, participated in a panel discussion at a Symposium on Neuro-Ophthalmology at Wills Eye Hospital on February 19. Dr. Alpers was honored by Kappa Beta Phi, honorary social fraternity, at its 35th annual Black and Blue Ball on March 20 at the Sheraton Hotel, where he was cited for his leadership in the field of teaching and the practice of clinical medicine.

DR. NATHAN S. SCHLEZINGER, Professor of Clinical Neurology, presided at the Symposium on Neuro-Ophthalmology at Wills Eye Hospital on February 19.

DR. ELLIOTT L. MANCALL, Associate Professor of Neurology, lectured on "Clinical and Pathologic Features of Cerebral Vascular Disease" at the Hunterdon Medical Center in Flemington, N. J.

DR. JOSEPH C. WHITE, Assistant Professor of Neurology, attended the Symposium on the Thalamus at the Columbia Medical Center, New York City, on November 30-December 1.

DR. LAWRENCE C. MCHENRY, Instructor in Neurology, attended the workshop on Cerebral Blood Flow January 12 and 13 in Miami, Florida. This was sponsored by the Neurology Study Section NINDB, NIH.

OBSTETRICS AND GYNECOLOGY

DR. GEORGE A. HAHN, Professor of Obstetrics and Gynecology, served on the Advisory Committee on Local Arrangements for the Sectional Meeting of the American College of Surgeons, February 15-17. On February 18th he participated in the Cancer Program Workshop at the Hospital of the University of Pennsylvania, speaking before the Regionalization Program on "The Association of Tumor Clinic Directors." Dr. Hahn was recently appointed Chairman of the Public Education Committee of the American Cancer Society, Philadelphia Division.

DR. WARREN R. LANG, Professor of Obstetrics and Gynecology was recently elected to membership in The American Association of Obstetricians and Gynecologists. On March 26th he spoke on "The Cervix—Its Role in Infertility" at the Conference on Clinical Management of Human Reproductive Problems. On April 2-4, Dr. Lang attended the annual meeting of The American Society for the Study of Sterility in San Francisco, where he gave two Round Table discussions on "The Cervix and Infertility" and co-chaired two seminars on Hormonocytology.

DR. MARIO A. CASTALLO, Clinical Professor of Obstetrics and Gynecology, spoke to the staff of Valley Forge General Hospital, March 29, on "Psychosomatic Aspects of Gynecology" and on April 13th he spoke at a meeting of The Engineers Club of Trenton, N. J., on "Mechanics of Childbirth."

ORTHOPEDIC SURGERY

DR. JAMES M. HUNTER, Instructor in Orthopedic Surgery, presented "The Elizabethtown Program Paper" before the Governor's Council for Human

Relations Conference on the Handicapped at Pennsylvania State Hospital for Crippled Children on November 30. On December 12th he presented "Management of the Fifth Metacarpal" before the combined meeting of the New York and Philadelphia Regional Trauma Society; on January 8th, he delivered "Artificial Tendon" before the American Society of Surgery of the Hand; and, on February 20th, he presented "Fractures of the Hand" at the Delaware Memorial Hospital.

DR. JOSEPH J. TOLAND, III, Instructor in Orthopedic Surgery, was recently elected to the Board of Governors of the American Fracture Association.

OTOLARYNGOLOGY

DR. JOSEPH SATALOFF, Associate Professor of Otolaryngology, was the guest speaker of the Georgia Ear, Nose and Throat Society at Callaway Gardens, Pine Mountain, Georgia, on April 1, 2, and 3. He presented papers on hearing loss, vertigo, and occupational deafness.

PEDIATRICS

DR. HANS G. KEITEL, Professor of Pediatrics and Head of the Department, attended the World Asthma Conference in Eastbourne, England; on April 27th he spoke before the Atlantic Postgraduate Assembly on "Antimicrobial Therapy in Children" and on "Screening Tests for Renal Disease in Pediatrics." During February Dr. Keitel served as Editor of *Pediatric Clinics of North America*.

DR. ROBERT L. BRENT, Professor of Pediatrics and Professor of Radiology (Radiation Biology), was featured speaker at the third annual Santa Rosa Medical Center Children's Hospital Education and Research Foundation, Inc. Pediatric Teaching Conference in San Antonio on March 13 and 14.

DR. MARTIN GREEN, Assistant Professor of Clinical Pediatrics, presented a paper on the "Residential Treatment of Asthma in Children" at the World Asthma Conference, Eastbourne, England.

DR. JAMES V. MACKELL, Assistant Professor of Clinical Pediatrics, addressed the medical staff of Haverford Hospital on March 16th on the topic, "Recent Advances for the General Practitioner."

PHARMACOLOGY

DR. ROLAND W. MANTHEI, Associate Professor of Pharmacology, presented a paper entitled "Characterization of the Major Metabolite of Metronidazole (Flagyl)" with J. E. Stambaugh and DR. LOUIS G. FEO, Assistant Professor of Clinical Urology, as co-authors, at the annual meeting of the Federation of American Societies for Experimental Biology, held in Atlantic City, April 10-14, 1965. DR. ROBERT SNYDER, Assistant Professor of Pharmacology, presented a paper entitled "Liver Alcohol Dehydrogenase: A Dehydrogenase and an Isomerase" with E. W. Lee as co-author.

DR. FREDRIC RIEDERS, Associate Professor of Pharmacology, spoke on "Unexpected Poisoning in Industry" before a dinner meeting of the Bucks County Industrial Management Club on March 9.

PREVENTIVE MEDICINE

DR. E. HAROLD HINMAN, Professor of Preventive Medicine and Head of the Department, attended the 50th Anniversary Meeting of the American College of Physicians in Chicago, March 21-24 and participated as a member of its Committee on International Relations. On March 29-30, Dr. Hinman attended the annual meeting of the Pennsylvania Health Council in Harrisburg. He was Chairman of the Program Committee responsible for developing the program. On April 7th, he presented a paper entitled "Medical Education and Community Health Problems" at the fourth annual Forum for International Medical Scholars under the auspices of The George Washington University School of Medicine for AID participants at Warrenton, Va.

DR. C. EARL ALBRECHT, Professor of Preventive Medicine (Public Health), attended the annual meeting of the Pennsylvania Health Council in Harrisburg, March 29-30. As Vice President of the Council, he presided at the morning session on March 30.

DR. HEINRICH BRIEGER, Professor of Preventive Medicine (Occupational Medicine), addressed the Philadelphia Association of Industrial Nurses on March 13th on the topic, "The Industrial Environment—Physiologic and Pathologic Aspects." On April 5-7, he attended the annual meetings of the Industrial Medical Association and the U.S. Delegation of the Permanent Commission and International Association of Occupational Health in Miami Beach, Florida, where he reported on "International Meetings."

PSYCHIATRY

On April 3-4, 1965, twenty members of the Department of Psychiatry met at the Nassau Inn, Princeton, New Jersey, for the second annual two-day administrative conference to review and discuss current and future departmental programs.

DR. FLOYD S. CORNELISON, JR., Professor of Psychiatry and Head of the Department, presented a paper at the scientific session of the meeting of the College of Physicians of Philadelphia in March. On March 24th he presented "Education in a Psychiatric Hospital" at Philadelphia General Hospital.

DR. ROBERT C. PRALL, Professor of Psychiatry (Child Psychiatry), spoke before the Hahnemann Medical College Department of Child Psy-

chiatry on February 17th on "Treatment of Childhood Psychosis"; spoke on "The Use of Dreams in Child Analysis" at a Seminar on Child Analysis sponsored by the Philadelphia Psychoanalytic Institute on February 26; presented a paper, "Differential Indication for Out-Patient, Day Care and In-Patient Treatment of Child Psychosis" at a meeting of the American Orthopsychiatric Association in New York, March 19; spoke on "The Role of Non-Verbal Communication in the Treatment of Child Psychosis" at Duke University on March 25; served as Guest Consultant at a staff conference of the Murdoch Child Psychiatric Center, Butner, N.C., March 25; and presented a paper "The Role of Emotion in Religious Education" before a meeting of the Philadelphia Council of Churches on March 30.

DR. CLAUD B. BAHNSON, Associate Professor of Psychiatry (Psychology), attended the N.Y.A.S. Conference on Psychophysiological Aspects of Cancer in New York City, April 5-7, where he presented a paper entitled "Role of Ego Defenses Denial and Repression in the Etiology of Malignant Neoplasm," co-authored with DR. MARJORIE B. BAHNSON, Research Associate in Psychiatry.

DR. IVAN BOSZORMENYI-NAGY, Associate Professor of Psychiatry, addressed the Juvenile Division of the County Court of Philadelphia on February 10th on "Diagnostic Considerations of Families in Therapy." He was chairman of the session on "Diagnostic Considerations in Family Therapy" at the 42nd annual meeting of the American Orthopsychiatric Association held in New York City on March 17-20.

DR. SAMUEL A. GUTTMAN, Associate Professor of Clinical Psychiatry, served as a discussant of a presentation by Dr. Lawrence S. Kubie, Visiting Professor of Psychiatry, entitled "Psychodiagnosis and Psychotherapy and Disciplinary Entity" at the 42nd annual meeting of the American Orthopsychiatric Association in New York City on March 17-20.

DR. GERALD CLARK, Assistant Professor of Clinical Psychiatry, is Superintendent of the Elwyn School, which sponsored a Lecture Series on Mental Retardation March 11 through May 6. These lectures were sponsored with the cooperation of Devereux Schools, Pennhurst State School and Hospital and Jefferson Medical College.

DR. HOWARD L. FIELD, Assistant Professor of Clinical Psychiatry, addressed a General Practitioner Seminar on February 17th in Wilmington, Delaware, on the topic, "Dependency."

DR. ROBERT S. GARBER, Assistant Professor of Clinical Psychiatry, participated in a two day conference in Washington, D.C., February 19-20 for leaders in State Mental Health Planning, entitled "Planning Comprehensive Community Mental Health Services." He moderated a panel on "Brains vs. Bricks, The Manpower Problem" at the conference. On February 18th he addressed the Morris County (N.J.) Medical Society and Morris County Heart Association on "Physicians, Stress and Coronary Artery Disease." On March 23rd he addressed the Women's Auxiliary of the Camden County Medical Society on "The Hidden Alcoholic" and on March 27th, he spoke at the Anclote Manor Second Annual Symposium, Tarpon Springs, Florida, on "Philosophy and Goals—Short Term Hospitalization." He was recently re-elected Vice President of the Board of Trustees, Princeton Hospital, Princeton, New Jersey, and took office as President of the Group for the Advancement of Psychiatry on April 8.

DR. J. CLIFFORD SCOTT, Assistant Professor of Clinical Psychiatry, presented a paper entitled "The Indispensability of a Complete Educational Program in the Residential Treatment of Adolescents" at the annual meeting of the National Association of Private Psychiatric Hospitals in San Diego, Calif. He also assumed Chairmanship of the Committee for Child and Adolescent Care (National) at the annual meeting.

DR. HARRY H. BRUNT, JR., Instructor in Psychiatry, addressed the New Jersey Association of Osteopathic Surgeons in Atlantic City, March 6th on "Psychiatric Aspects of Non-Traumatic Disorders of the Central and Peripheral Nervous System."

DR. J. ROBERT CUNNINGHAM, Instructor in Psychiatry (Child Psychiatry), is serving as Director of the Jefferson Service at Eastern State School and Hospital, which consists of 30 adolescent boys often with behavioral problems.

DR. ROBERT J. JOSEPH, Instructor in Psychiatry, was promoted to rank of Psychiatrist at Germantown Hospital on March 10.

DR. DALE H. PALMER, Instructor in Psychiatry, is the Director of the newly-organized Delaware County Council on Alcoholism.

DR. SEYMOUR J. VIENER, Instructor in Psychiatry, has been appointed Assistant Chief and Director of Training at the Neuropsychiatric Treatment and Training Center, U.S. Naval Hospital, Philadelphia.

RADIOLOGY

DR. SIMON KRAMER, Professor of Radiology, spoke on "A New Look at the Cancer Problem" at Marquette University on March 10.

SURGERY

DR. RUDOLPH C. CAMISHION, Associate Professor of Surgery, and resident Dr. Richard Padula presented a paper entitled "Obstruction of the Coronary Ostia During Systole by the Aortic Valve Leaflets" at the annual meeting of the American Association for Thoracic Surgery in New Orleans, March 29-31. Dr. Camishion was recently elected a member of the Society of University Surgeons.

DR. RICHARD L. ROVIT, Associate Professor of Surgery (Neurosurgery), spoke on "Cushing Disease and the Pituitary" before a meeting of the Philadelphia Endocrinology Society on February 17; on March 31st he spoke on "Unusual Chromophobe Adenomas of the Pituitary" before the surgical staff at Misericordia Hospital; and April 11-15, he attended a meeting of The Harvey Cushing Society in New York where he spoke on "Multiple Acute Epileptogenic Foci in Cats" and moderated a panel discussion on "Hypophysectomy."

DR. HERBERT E. COHN, Associate in Surgery, talked to the Junto on March 31st on "Recent Advances in the Field of Organ Transplantation."

DR. NICHOLAS T. ZERVAS, Associate in Surgery (Neurosurgery), presented a paper entitled "Radio-frequency Hypophysectomy" at the Philadelphia meeting of the American College of Surgeons, February 15.

Alumni Participate in OB-GYN Residents' Day at Misericordia Hospital

Dr. Robert A. Cosgrove (second from right), Professor of Obstetrics and Gynecology, Seton Hall College of Medicine, and Attending Obstetrician-Gynecologist, Margaret Hague Maternity Hospital, Jersey City, New Jersey, was guest speaker at OB-GYN Residents' Day at Misericordia Hospital, Philadelphia, on March 18. The other participants, all of whom served their Residency in Obstetrics and Gynecology at Misericordia Hospital under the direction of Dr. J. Edward Lynch (Jeff '35) Assistant Professor of Clinical Obstetrics and Gynecology at Jefferson and Director of the Department at Misericordia, were (left to right) Dr. Joseph J. Price, Assistant in Obstetrics and Gynecology, Jefferson; Dr. Paul D. Greismer (Jeff '54); Dr. Joseph M. Skutches (Jeff '57) Dr. Casimir J. Wanczyk (Jeff '59); Dr. John A. Craig (Jeff '58); and Dr. Charles G. Heil, Jr. (Jeff '53).

The Armitage Family Heritage

Harry Marshall
Armitage

George Lawrence
Armitage

Harry Van Gorder
Armitage

LIKE father, like brother, like son, characterizes the Armitage family of physicians, whose unique medical heritage was featured in a recent issue of *The Pennsylvania Medical Journal*. Harry Marshall Armitage, his brother George Lawrence Armitage, and his son Harry Van-Gorder Armitage have realized nearly identical careers in the practice of medicine.

All three were born in Chester, Pennsylvania, attended public school there and graduated from Chester High School. All attended medical schools in Philadelphia, Harry M. graduating from the Medical School of the University of Pennsylvania and his brother and son graduating from Jefferson Medical College. All three interned at Chester Hospital, practiced medicine in Chester and became Chiefs of Surgery at Chester Hospital and Fellows of the American College of Surgeons.

Each one served as President of the Delaware County Medical Society, Harry M. in 1917, George L. in 1930, and Harry V. in 1963. Last year, as President of the county medical society, Dr. Harry V. Armitage presented the Pennsylvania Medical Society's 50-Year testimonial to his uncle, Dr. George L. Armitage.

Harry Marshall Armitage was born in 1886 and died in 1929 at the age of 43, leaving a reputation for outstanding surgical skill. He al-

ways maintained that abdominal incisions should be made long enough for adequate surgical attention and his son now frequently recognizes a case as a former patient of his father's, when he observes a patient's abdomen.

George Lawrence Armitage (Class of 1914) was born in 1891 and died July 25, 1964. He volunteered for service in the Army Medical Corps during World War I, served with the British Army in France, and was awarded the British Cross for gallantry in action. After the war, he studied surgery and urology at the University of Montpellier in France. In his spare time, he was an enthusiastic fisherman and hunter.

Harry VanGorder Armitage (Class of 1943), son of Harry M., was born in 1916 and during World War II served in the Medical Corps of the U. S. Army, chiefly in the Philippine Islands during the Luzon Campaign. Following war service, he joined his Uncle George in practice, and in 1948 he attended the Graduate School of the University of Pennsylvania, receiving a fellowship in surgery at the Guthrie Clinic and Robert Packer Hospital in 1949. He resumed practice in Chester and now holds staff appointments at Crozer-Chester Medical Center, Taylor Hospital, Riddle Hospital, and Sacred Heart Hospital. He is presently Chairman of the Council of Medical Service of the Pennsylvania Medical Society. When time permits, he enjoys fishing and golf.

DR. CREECH RECEIVES DISTINGUISHED ACHIEVEMENT AWARD

DOCTOR Oscar Creech, Jr. (Jeff '41), the William Henderson Professor of Surgery and Chairman of the Department of Surgery at Tulane University, New Orleans, is one of ten medical leaders named to receive the Modern Medicine Distinguished Achievements Awards for outstanding contributions to medical science. The citation to Dr. Creech, which appeared in the January 4, 1965, issue of *Modern Medicine*, reads:

"'Advances in surgery must come from the creative ideas of surgeons well backgrounded in the basic sciences,' says Dr. Oscar Creech, Jr., Chairman of the department of surgery at Tulane. He himself has contributed influential advances in regional perfusion, heterotransplantation of kidneys, and use of synthetic blood-vessel grafts. Mechanical skills, of course, are important to a surgeon, he says, and surgeons by now have approached the ultimate in dexterity and anatomic knowledge necessary to perform almost any feasible operation. The next step, he predicts, is that departments of surgery will include investigators, teachers, and experimental surgeons on equal status with clinical surgeons. Explaining his philosophy as department head, Dr. Creech says, 'The first function is to train surgeons, and the second is to contribute to knowledge. If a surgeon accepts the opportunity to learn his profession, he also accepts responsibility for teaching others.'

"Results at Tulane during and before Dr. Creech's tenure have demonstrated the efficacy of interdepartmental cooperation. Today, he points out, Tulane's interdisciplinary attack on major medical problems includes investigation in altering the rate of cell division for more effective cancer therapy, muscle and bone physiology after trauma, mechanisms of transplantation immunity, modifications of artificial lungs, postoperative course after open-heart surgery, deep hypothermia and circulatory arrest, kidney function in hypertension, and hyperbaric oxygenation effect on cancer chemotherapy.

"Cooperation is vital in kidney transplantation at Tulane, he says. Prospective patients are the responsibility of a surgeon, a urologist, an immunologist, an internist, a pediatrician, and often doctors from the Tulane primate center. 'It has been gratifying to observe the harmonious

way in which this group has been able to work,' Dr. Creech says. Although his department is well known for use of chimpanzee kidneys, he emphasizes that heterotransplantation is done only when suitable human donors are unavailable. The Tulane team has achieved survivals of a few days to nine months in nine patients with terminal kidney disease receiving chimpanzee kidneys.

"A purposeful innovator, Dr. Creech teamed with Dr. Edward Krementz to develop a perfusion technique now widely used. A heart-lung mechanism pumps anticancer drugs through isolated portions of the body while the rest of the system is protected by tourniquets. The technique was first used at Tulane in 1957 to treat a patient with rapidly spreading melanoma of the legs. The tumor was eradicated, and the elderly patient made full recovery.

"Emergence of the Tulane department of surgery as a front runner in today's investigative work has taken the talents and energies of many, directed by the hardworking Dr. Creech. After a number of years of heavy administrative duties, however, he now gets back into the laboratory at least two days a week. 'I'm going to learn as much as I can about immunology,' says the continual researcher. He's done this without cutting down his three-day-a-week operating load. 'I can tell the difference if I go a week without operating,' he says. 'Even three or four days make a difference.'

"Some of his passion for perfection is the result of excellent teachers with a willing student. Born in North Carolina in 1916, he received his M.D. degree from Jefferson Medical College. After World War II service, Dr. Creech took residency training under Dr. Anton Ochsner at Tulane and later worked under Dr. Michael DeBakey at Baylor before returning to take over Dr. Ochsner's chair at Tulane. Both investigator-teachers sparked Dr. Creech's interest in vascular surgery and his investigative curiosity. Despite surgical conquest of many diseases with the ever-increasing expansion of medical knowledge, Dr. Creech is convinced that 'there always will be a place for the man who is well trained in the basic sciences as well as in surgery.' His career proves the point."

REUNION CLASSES

52nd Reunion—Class of 1913

THEO W. O'BRIEN, M.D.
301 Lincoln Avenue
Havertown, Pennsylvania

The Class of 1913 will hold a luncheon on Wednesday, June 9th, at The Benjamin Franklin Hotel. Time: 1:30 p.m. Cost: \$10.00 per plate. Wives, children, and guests are invited to attend.

50th Reunion—Class of 1915

EDWARD I. SALISBURY, M.D.
539 Manhasset Woods Road
Plandome, L.I., New York

JOSEPH ASPEL, M.D.
5002 Spruce Street
Philadelphia, Pennsylvania

There will be a luncheon for members of the Class of 1915 on Thursday, June 10th at the Benjamin Franklin Hotel.

45th Reunion—Class of 1920

HENRY B. DECKER, M.D.
527 Penn Street
Camden, New Jersey

There will be either a dinner for the Class of 1920 on Wednesday evening, June 9, or a luncheon on Thursday, June 10. Definite plans will be announced very soon.

40th Reunion—Class of 1925

CLYDE M. SPANGLER, M.D.
255 South 17th Street
Philadelphia, Pennsylvania 19103

There will be a luncheon held at the Union League on Wednesday, June 9.

35th Reunion—Class of 1930

PATRICK J. KENNEDY, M.D.
32 Hampden Road
Upper Darby, Pennsylvania

Reunion plans for the Class of 1930 include a scientific meeting at Jefferson, June 9th, at 9 a.m. Following the meeting there will be a class meeting and stag luncheon in the Regency Room of the Barclay Hotel at 1:00 p.m., and that evening the Mirage Room of the Barclay Hotel will be the scene of a dinner dance which is scheduled to get underway at 6:30 p.m. There will also be a class reception before the Alumni Banquet on June 10.

30th Reunion—Class of 1935

JOHN A. MCCORMICK, M.D.
38 Hampden Road
Upper Darby, Pennsylvania

A luncheon will be held on June 9th at the Union League where we had so much fun in the past. That evening, our good wives may join us in a Supper Dance at Williamson's Restaurant, atop the Barclay Building.

25th Reunion—Class of 1940

THOMAS B. MERVINE, M.D.
1120 Wyndwood Road
Haddonfield, New Jersey

Reunion plans for the Class of 1940 include a pool-side party during the afternoon of Wednesday, June 9th, at the Marriott Motor Hotel, followed by a cocktail party and dinner dance, also at the Marriott, which will be Class headquarters. On the evening of June 10th there will

SCHEDULE ACTIVITIES

be a cocktail party for class members and their wives at The Benjamin Franklin Hotel preceding the Alumni Banquet.

20th Reunion—Class of 1945

ORAM R. KLINE, JR., M.D.
406 Cooper Street
Camden, New Jersey

The banquet room of the Penn Center Inn, 20th and Market Streets, has been reserved for members of the Class for a cocktail party followed by dinner and dancing on the evening of Wednesday, June 9. The festivities will begin at 6:30 p.m.

17th Reunion—Class of 1948

NORMAN JAMES QUINN, JR., M.D.
1218 Valley Road
Villanova, Pennsylvania

The 17th Class Reunion of the Class of 1948 will be held at the Greenbrier, White Sulphur Springs, West Virginia, July 16, 17, and 18, 1965.

15th Reunion—Class of 1950

WILLIAM D. MCNAMEE, M.D.
146 Long Lane
Upper Darby, Pennsylvania

There will be a cocktail party followed by dinner and dancing on Wednesday, June 9th, at The Drake Hotel, 1512 Spruce Street. Cocktails are at 7 p.m. and dinner at 8 p.m.

10th Reunion—Class of 1955

LEON A. PERIS, M.D.
2023 Mather Way
Elkins Park, Pennsylvania

RICHARD H. SCHWARZ, M.D.
106 Dulles Building
3400 Spruce Street
Philadelphia, Pennsylvania

ROBERT J. SENIOR, M.D.
Doctors Building
Willow Drive
Chapel Hill, North Carolina

The Class of 1955 will hold its 10th reunion at the Holiday Inn, 1305 Walnut Street, on Wednesday evening, June 9. A floor of the Holiday Inn will be turned over to the out-of-town classmates and their wives, complete with a Hospitality Room. A "black-tie" banquet, with social hour preceding, will be held at 7 p.m. with dancing to a combo until midnight. Thursday evening, June 10th, will be the Annual Alumni Banquet with graduation exercises the following morning.

5th Reunion—Class of 1960

MARVIN E. JAFFE, M.D.
9114 Springview Road
Philadelphia, Pennsylvania

Reunion plans for the Class of 1960 include a cocktail party and filet mignon dinner at 7 p.m. on the evening of Wednesday, June 9th, at the C-R Club in Philadelphia. Dinner will be followed by a floor show and dancing. Those members of the Class still in training may obtain Pool Tickets for the Annual Alumni Banquet, provided through the generosity of Jefferson graduates now firmly established in practice.

CLINIC PROGRAM

CLASS REUNION DAY

Wednesday, June 9, 1965

- | | | |
|------------|--|--------------------|
| 9:30 a.m. | William T. Lemmon, M.D.
LYMPHATIC STASIS INDUCED BY CHLOROPHYLLATED ETHIODOL IN LYMPHANGIOGRAPHY
Richard R. Soricelli, M.D.
NEWER METHODS OF DIALYSIS IN CHRONIC RENAL DISEASES | 5th Class Reunion |
| 9:45 a.m. | Leon A. Peris, M.D.
THE PHYSICIAN AS GENETIC COUNSELOR | 10th Class Reunion |
| 10:00 a.m. | Hal E. Snedden, M.D.
CERVICAL SPINE SYNDROME | 15th Class Reunion |
| 10:15 a.m. | James H. Lee Jr., M.D.
DIAGNOSIS OF UTERINE ANOMOLIES DURING PREGNANCY | 20th Class Reunion |
| 10:30 a.m. | William J. Snape, M.D.
THE PLACE OF THE INTERNIST IN THE MODERN PSYCHIATRIC HOSPITAL | 25th Class Reunion |
| 10:45 a.m. | COFFEE PERIOD — STUDENTS LOUNGE | |
| 11:15 a.m. | Edmund L. Housel, M.D.
TREATMENT OF HYPERTENSION | 30th Class Reunion |
| 11:30 a.m. | Leib Golub, M.D.
STUDIES IN DYSMENORRHEA | 35th Class Reunion |
| 11:45 a.m. | Abraham Cohen, M.D.
RHEUMATOID ARTHRITIS — STEROID SPARING WITH INDOMETHACIN | 40th Class Reunion |
| 12 Noon | Lloyd Alexander Hamilton, M.D.
THE SATISFACTIONS OF OVER FORTY YEARS IN COUNTRY PRACTICE | 45th Class Reunion |
| 12:15 p.m. | Edward I. Salisbury, M.D.
HEMOGLOBINURIA | 50th Class Reunion |
| 1:00 p.m. | DEAN'S LUNCHEON
McClellan Hall—Jefferson Medical College | |

ALUMNI DAY CLINICS

Thursday, June 10, 1965

"WHAT'S AHEAD FOR MEDICINE AT JEFFERSON"

- | | |
|------------|--|
| 9:30 a.m. | "Wake Up" Breakfast—Coffee and Pastries Students' Lounge |
| 10:00 a.m. | William A. Sodeman, M.D., Dean and Vice President for Medical Affairs
JEFFERSON AND THE FUTURE IN MEDICINE |
| 10:30 a.m. | Floyd S. Cornelison, Jr., M.D., Professor of Psychiatry and Head of the Department
CHANGES IN THE FIELD OF PSYCHIATRY |
| 11:00 a.m. | Roy G. Holly, M.D., Professor of Obstetrics and Gynecology and Head of the Department
TRENDS IN OBSTETRICS AND GYNECOLOGY |
| 11:30 a.m. | Philip J. Hodes, M.D., Professor of Radiology and Head of the Department
THE IMPACT OF ELECTRONICS UPON RADIOLOGY |
| 12 Noon | CLINICO-PATHOLOGIC CONFERENCE
Presented by Members of the Graduating Class
L. A. KARP, Moderator
R. M. PILEWSKI, Discussor
B. W. WEISSMAN, Radiologist
J. P. LEDDY, Pathologist
S. SALEN, Protocol
R. K. SANDBERG, Protocol
Faculty Advisors:
Richard T. Cathcart, M.D., Associate Professor of Medicine
Joseph Medoff, M.D., Assistant Professor of Clinical Medicine |
| 7:00 p.m. | ANNUAL ALUMNI BANQUET
Benjamin Franklin Hotel
9th and Chestnut Streets |

COMMENCEMENT DAY

Friday, June 11, 1965

- | | |
|------------|---|
| 10:30 a.m. | Commencement Exercises of the Class of 1965 at the Academy of Music, Broad and Locust Streets |

CLINIC COMMITTEE

PETER A. THEODOS, M.D., *Chairman*
J. WOODROW SAVACOO, M.D., *Alternate*
JOHN J. DETUERK, M.D.
DAVID M. FARELL, M.D.
GERALD MARKS, M.D.
JOHN F. WILSON, M.D.

CHAPTER NOTES

WEST CENTRAL PENNSYLVANIA CHAPTER

Dr. Fineberg addresses Chapter members. Also seated at head table were (from left) Mrs. Cwik, Dr. Cwik, Mrs. Dandrea, and Dr. Dandrea.

Photo shows (from left) Dr. Dandrea, Dr. Murray, Dr. Willauer, Dr. Fineberg, Dr. O'Leary, and Dr. Cwik.

THE West Central Pennsylvania Chapter of the Jefferson Medical College Alumni Association held a dinner meeting on April 9th at the Candlelight Motel, Edensburg, Pennsylvania.

The meeting featured speakers Dr. George Willauer (Class of '23), Clinical Professor of Surgery, Honorary, and Dr. Charles Fineberg, Assistant Professor of Surgery, who spoke to the group about current activities at Jefferson, and Dr. John A. Murray (Class of '31) who presented an interesting talk on "A Jefferson Heritage." (We feel that Dr. Murray's talk would be of interest to all Alumni, and will publish it in a future issue of the BULLETIN. ed.)

During the business portion of the meeting, the following officers were elected: President, Dr. John C. Cwik, Class of '51; President-Elect, Dr. James M. O'Leary, Class of '46; Secretary-

Treasurer, Dr. Raymond L. Dandrea, Class of '51; and Chairman of Executive Committee, Dr. John A. Murray.

Attending the meeting were Dr. and Mrs. Frank T. Carney, Dr. and Mrs. W. J. Hargreaves, Dr. George Bloom, Dr. Robert R. Wertz, Dr. and Mrs. Thomas F. O'Leary, Dr. and Mrs. James M. O'Leary, Dr. and Mrs. S. Victor King, Dr. and Mrs. Robert C. Magley, Dr. and Mrs. Oliver Mattas, Dr. and Mrs. Richard P. Zimmerman, Dr. and Mrs. Ray Lantos, Dr. and Mrs. Ray Dandrea, Dr. and Mrs. John C. Cwik, Dr. and Mrs. John A. Murray, Dr. Joseph W. Gattti, Dr. and Mrs. T. W. Kredel, Dr. and Mrs. William L. Hughes, Dr. Paul M. Straub, Dr. and Mrs. Joel Goldman, Dr. Theodore Biddle, Dr. George F. Wheeling and Dr. and Mrs. R. B. Carruthers.

FLORIDA CHAPTER

THE Florida Chapter held its most successful get-together in its history on April 23rd at the Americana Hotel, Bal Harbour, Florida, in conjunction with the meetings of the Florida Medical Association.

Thirty-eight members enjoyed good fellowship, good food, and an outstanding talk by Dr. John H. Hodges (Jeff '39), the Ludwig A. Kind Professor of Medicine. Also honored were Dr.

Louis H. Clerf (Jeff '12), Dr. Anthony D. Amerise (Jeff '22) and Dr. John J. Cheleden (Jeff '32).

Outgoing President Dr. William A. Abelove (Jeff '51) served as Master of Ceremonies. We hope that this will be the beginning of many happy Jefferson get-togethers in the State of Florida.

DR. EDWARD J. SALTZMAN

A, B, C: Indicate leading classes in three categories.

* Inclusion in Class Total of gifts given by Widows and Friends of Jefferson. The complete list will be published in the Annual Report in the August Alumni Bulletin.

† Deceased.

WE ARE CONCERNED

This is our final and urgent appeal for your help in the 17th Annual Giving Fund Drive.

Frankly, we are worried. Our total stands at only \$137,906 and we have only one month to go before the end of the Drive. To reach our goal, we must receive contributions totaling \$62,094. We are still convinced we can do it, but we need increased gifts from our regular contributors and "new" gifts from those who have not yet participated in our Drives.

To date we have received gifts from only 2,945 of our total Alumni body of 6,987. This represents participation of only 42% which is far below Jefferson's standards for Alumni loyalty.

We have been very proud of our records in the past and I am sure that everyone would be most disturbed if our progress did not continue.

All graduates of our great medical school have a responsibility to aid her in offering a high level of medical education to her students—present and future. We must help our Administration and Faculty to attract top students by supplying funds to provide for the best in faculty, equipment and physical facilities. The monies for the needed "extras" which make for an outstanding medical school must come from private sources. Certainly the Administration has every right to look first to Jefferson's own sons for these funds. Indeed, without demonstrated Alumni support, appeals to outside private sources would have to be curtailed. To paraphrase—"Foundations and corporations help schools who help themselves." Any decrease in our Alumni Annual Giving will have a deleterious effect on the sources of outside monies.

With the increasing competition for top students, I don't think we can afford to fail Jefferson in the 17th Drive. There can be no let up in our progress, for today, to stand still is to regress. This is true in all educational fields but it is particularly true of a private, independent medical school.

We are all proud of Jefferson's position in medical education but to be proud is not enough. This pride must be expressed in a material way or the object of our pride will suffer.

Soon we will have additional reasons to be proud of our school. We will have a real campus with imposing buildings but it falls to us to insure that these buildings are staffed with excellent teachers and furnished with the best of equipment.

No contribution is too small to be acceptable, though we urge those of you who can to give in substantial amounts. The reasons for giving are valid. Examine your reasons for not having contributed. Are they equally valid—or are they merely excuses?

Please join us by sending your check to your Class Agent or to the Alumni Office at once. Let us set a new record for the 17th Drive.

J. WALLACE DAVIS, M.D.
Chairman
Annual Giving Fund Committee

CLASS

NOTES

1896

DR. BENJAMIN LEE GORDON, noted Ophthalmologist, author, and medical historian, died on March 30, 1965, at the age of 94 in Atlantic City, N.J., where he had resided since 1930.

Dr. Gordon was born on July 5, 1870, in Neustadt, Lithuania, the son of Abraham B. and Sarah Gordon. He was graduated from Jefferson in 1896 and served here as Instructor in Obstetrics from 1897 to 1901. The Benjamin Lee Gordon Prize in medical history is given each year to a Jefferson student who has completed the junior year and who has contributed the best essay on any phase of medical history.

He served on the staff of several Philadelphia hospitals and in 1909 did graduate work in Vienna, after which he toured Palestine, Egypt, and other parts of the Near East. The results of his observations were published in a volume entitled *New Judes*.

In 1930 he moved to Atlantic City where he was Ophthalmologist at the Shore Memorial Hospital, and held similar posts at the Atlantic County Hospital for Tuberculosis, Northfield, N.J., and Atlantic County Asylum for Mental Diseases, Northfield. Since 1935 he had been Authorized Commercial Medical Examiner for the Civil Aeronautics Administration, Department of Commerce, Washington, D.C.

He was a member of Keegan's Brigade during the Spanish-American War, a member of the Medical Advisory Board in World War I, and in the Volunteer Medical Service Corps.

Dr. Gordon was a member of numerous scientific societies and was one of the founders of the Zionist Organization of America in 1898, and he took a lifetime interest in this organization.

He was the author of numerous articles on ophthalmology and medical history and four recent books: *The Romance of Medicine*, *Medicine Throughout Antiquity* (both published by F. A. Davis), *Between Two Worlds* (Bookman's Associates, New York) and *Medieval and Renaissance Medicine* (Philosophical Library, New York). He was also a contributor to the *Encyclopedia Britannica* and *Collier's Encyclopedia*.

1906

Class Agent DR. FRANCIS F. BORZELL sends the following resume of his recollections of the late DR. WALTER H. BROWN:

"Dr. Brown and I spent the first four years after graduation as general practitioners and located in Bucks County, Pa., about six miles from each other. During that period Walter demonstrated his keen interest in Preventive Medicine by organizing a campaign against Tuberculosis. I had the pleasure of being treasurer of the \$400 fund for the campaign which was raised by popular subscription. We showed an exhibit from Lansdale to Quakertown along the North Penn. In those days our armamentarium consisted of hygiene and sanitation, a maximum of fresh air and sunshine, open windows at night, forced feeding and rest.

"Dr. Brown then went to Boston for a postgraduate course in Public health. From there he went to Hartford Connecticut as 'Health Officer.' His duties there included sitting as a magistrate on charges of violation of health codes. From there he went to Mansfield, Ohio, in charge of a Child Health Clinic. Then he went to Salem, Oregon, also to conduct a Child Health Clinic.

"From there he went to Leland Stanford University as Professor

of Public Health. During this time he was President of the American Public Health Association. On retirement from Leland Stanford he was called to the University of California to organize their Department of Public Health.

"For a time after the first World War he was sent to France on a survey program. I do not have any details of his activities while there. His biography I understand has been published in the National Encyclopedia.

"Walter Brown was unquestionably a pioneer in the broad aspects of modern Public Health and preventive medicine, at a time when all that could be done was largely enforcement of quarantine.

"He was a man that Jefferson can be proud of, for in all phases of his career he maintained those qualities as a physician that are so often lost in a highly specialized field.

"I am proud to have been a close friend and as Class Agent of 1906 I know I express the admiration of our entire class for Walter H. Brown."

1913

DR. SIMON H. ROSENTHAL, Suite 11, Medical Center, 1900 Tate Springs Rd., Lynchburg, Va., recently received tribute in the January 2nd issue of *The Lynchburg News*. The article reads in part, "It is always pleasing to give recognition to a leading citizen while he is still active in his career. Especially is this so when he is a beloved physician of the community. Dr. Simon H. Rosenthal, a native of Lynchburg, today reaches the impressive status of having practiced as a physician-urologist for fifty years, and will continue to be active in his profession.

1914

DR. JACK H. HARRIS, 1536 Leaview Ave., Willoughby, Norfolk, Va., writes to Class Agent Dr. Allman, "After serving 30 years in the Medical Corps of the Navy I retired with the rank of Captain. Then I served as Director of the Norfolk City Venereal Disease Clinic for 11 years, retiring from this position in December, 1952. Since then my wife and I have been living quietly here at Willoughby where we built a home in 1939.

1915

Four members of the Class of 1915 were among five physicians honored at the 81st annual banquet of the Luzerne County Medical Society on January 23. DR. HARRY A. SMITH, DR. ABE DATTNER, DR. JOHN L. LAVIN, and DR. ALBERT M. THOMAS each received the plaque of the Medical Society of the State of Pennsylvania in recognition of their having practiced medicine continuously for the past 50 years.

DR. EDWARD I. SALISBURY, 539 Manhasset Woods Road, Plandome, L.I., N.Y., writes, "My son Cdr. EDWARD M. SALISBURY (Class of '54), U.S.N., recently returned from a tour of duty as Senior Medical Officer at Sangley Point, Philippines, and is presently stationed at U.S.N. Hospital, Quantico, Va., in the Department of Medicine."

1917

DR. EDGAR W. KEMNER, 14 Treasure Lane, St. Petersburg, Fla., writes, "Life here is wonderful. Have our own home, boat and dock. Flowers, grass and year round shrubbery. Boating, swimming, and fishing fine. Try it and live longer."

1918

DR. CHARLES R. FOX, 1919 Washington Ave., Northampton, Pa., received the 15th annual Golden Deeds award of the Northampton Exchange Club on January 6th in recognition of his charitable work.

DR. PAUL B. REISINGER, 855 Berkeley Ave., Trenton, N. J., writes to

Class Agent Dr. Griffith, "I have been very fortunate in having good health. I carry on general practice daily and vacation quite a bit with my wife. Have no children, not even a cat or a dog. We have many Jeff men in town and see them daily. May Jefferson continue to grow and the interest of the Alumni never diminish. Regards to all the classmates. I would like them to stop and see me when they go through Trenton."

1919

DR. R. GUY BASHORE, 101 North Front St., Minersville, Pa., was recently honored at a surprise testimonial dinner by the Minersville Rotary Club. The affair paid tribute to Dr. Bashore's 44 years of service as a doctor and as an outstanding charter member of Minersville Rotary with more than 20 years of perfect attendance. Highlight of the evening was the presentation of a handsome walnut and gold "Distinguished Rotary Award" plaque by Club president on behalf of the Minersville Rotarians. Program Chairman Kenneth L. Brennan recounted Dr. Bashore's contributions to his fellow man. Highlights of his medical career included a courageous battle against the flu epidemic following World War I in his hometown of Tremont and his delivery of more than 3,000 babies in the Minersville area.

DR. MILTON B. EMANUEL, 625 Vine St., Philadelphia 6, Pa., writes, "This has been a sad year for our Class. We lost the following classmates: SAM FABRICANT, BILL HIES-TER, BILL JACOBY, ARTHUR JONES, EARL MUNGLE, and BILL WRANG. Quite a few of our classmates are ill—HARRY EPSTEIN, EMERY HERMAN, SOL HERMANY, MOSES LEVIN, ROYAL WILLIAMS. It is for us the living to carry on in the Old Jeff tradition. Take it easy and stay well so we can get together for our 50th Reunion.

DR. FRANK W. KONZELMANN, 106 E. Myrtle Ave., Linwood, N.J., has been elected President of the Medical Staff of Mercy Hospital for 1965.

1921

DR. GLENN R. FRYE, P.O. Box 2345, Hickory, North Carolina, reports, "I am building an addition to my 100-bed general hospital which will add new X-ray and Lab Departments, offices, and ten private rooms, bringing the bed capacity to 110."

DR. LAWRENCE G. HEINS, 3rd and Buckeye, Abilene, Kansas, retired from active medical practice on May 1, 1963.

DR. LOUIS M. LIDE, V. A. Hospital, Clarksburg, W. Va., is on the medical staff of the V. A. Hospital.

DR. I. HAYDEN LUTTERLOH, Box 809, Sanford, N.C., and his son, DR. HAYDEN LUTTERLOH, JR., Class of 1952, operate the Lutterloh Clinic in Sanford.

DR. WILLIAM E. McCULLOUGH, 26 W. Misheltorena St., Santa Barbara, Calif., writes, "I am still in active practice here in Santa Barbara, specializing in Neurology and Psychiatry. I travel a lot, taking in one world congress each year. It helps keep me up to date and gives me the opportunity of meeting many doctors in my field."

DR. LOUIS R. MORGAN, 3855 Country Club Rd., Long Beach, Calif., writes, "I am still in full time general practice and going strong. I have eased up on my obstetric practice, letting the younger men do it for me."

1923

DR. WILLIAM C. WILENTZ, 188 Market St., Perth Amboy, N.J., has been elected President of the Garden State Hospitalization Plan and has also been elected Secretary of the American Academy of Compensation Medicine.

1928

DR. HENRY A. DAVIDSON, Essex County Hospital, Cedar Grove, N.J., has been appointed editor of *Mental Hygiene*, the professional journal published quarterly by the National Association for Mental Health.

1929

DR. EDGAR S. KRUG, 143 Health Center, University Park, Pa., has retired as Assistant Director of the Ritenour Health Center at The Pennsylvania State University. Dr. Krug served for nearly 30 years as physician to students at Penn State. Dr. Krug, a sports enthusiast, looks forward to having more time to pursue his favorite pastimes, hunting, fishing, and reading.

DR. WILLIAM A. ZAVOD, 133 Archer Ave., Mt. Vernon, N.Y., spoke on "Smoking and Cancer" at the first session of the Smokers' Workshop on March 30th in White Plains, N.Y.

1932

DR. J. ROBERT VASTINE, 901 N. Orange St., Shamokin, Pa., has a son, David W., who is in his junior year at Jefferson. David was recently awarded a \$1,441. fellowship by the Association of American Medical Colleges which will enable him to assist for 11 weeks next fall at a mission hospital in the Kathamandu Valley of Nepal.

DR. WILLIAM B. WEST, 909 Mifflin St., Huntingdon, Pa., was honored at a dinner on February 27th for his faithful service while serving as Chief of the Medical Staff at J. C. Blair Memorial Hospital. Dr. West was president of the medical staff at the hospital from January 1959 to January 1962 and served as Chief of Staff from 1962 to 1965.

1935

DR. NATHAN SUSSMAN, 805 N. 2nd St., Harrisburg, Pa., has been appointed Medical Director of the Dauphin County Home. Dr. Sussman is president of the medical staff at Harrisburg Hospital and a recognized authority on care and rehabilitation of the elderly.

1937

DR. EUGENE L. ANCHORS, 12 Grant St., Clarion, Pa., has been given a certificate of appreciation signed by President Johnson, Governor William W. Scranton and Lewis B. Hershey, director of Selective Service, for services he rendered during the past 20 years. During this time,

Dr. Anchors examined selective service personnel free of any charge.

DR. WILLIAM T. DOUGLASS, JR., 1926 Market St., Harrisburg, Pa., was elected President of the Medical Bureau of Harrisburg at the Bureau's 23rd annual Membership and Board of Directors Meeting.

1938

DR. SIMON M. BERGER, Albert Einstein Medical Center, York and Tabor Roads, Philadelphia 41, Pa., has been promoted to the position of senior attending physician in the Division of Radiology at Albert Einstein Medical Center.

1940

DR. GEORGE F. LULL, JR., Claycut Place Apts., No. 21, 4900 Claycut Road, Baton Rouge, Louisiana, has retired to civilian practice, having joined Drs. Ramsay and Boyer at Baton Rouge General Hospital.

1941

DR. RICHARD T. SMITH, 37 Narbrook Park, Narberth, Pa., is the newly-elected Mayor of Narberth, Pennsylvania.

Dr. Smith

1942

DR. JAMES A. HECKMAN, 1032 6th Ave., Huntington, West Va., reports that his son, Jim, has been accepted for admission to Jefferson in the Fall of 1965.

1944-S

DR. EDWARD L. MCCONNELL, JR., 115 Gypsy Lane, Wynnewood, Pa., has appointed Dr. Martin Zeluck as a partner in his practice of Obstetrics and Gynecology.

DR. JOHN T. MCGEEHAN, 728 Maurus St., St. Mary's, Pa., will take a three-year leave of absence from his post as Chief Surgeon at the Andrew Kaul Memorial Hospital to study the treatment of cancer. He will take this study at the Cleveland Clinic along with radiology and radio therapy.

DR. STEPHEN MOURAT, 6400 Brookside Drive, Chevy Chase, Md., has been awarded the Army Commendation Medal for the outstanding manner in which he served in key positions in the Psychiatry Service at Walter Reed General Hospital in Washington, from March 1956 to February 25, 1965. During this period, Colonel Mourat also served as Consultant in Child Psychiatry to the Surgeon General of the U.S. Army. Dr. Mourat initiated the child psychiatry training program in the U.S. Army and developed the first such training clinic at Walter Reed General Hospital in October 1957. This was the prototype for the second program established in 1960 at Letterman General Hospital in San Francisco, Calif. The Walter Reed training center is approved and fully accredited by the American Medical Association and the American Association of Psychiatric Clinics for Children. The only such program in the armed forces, the clinic provides both training for professionals and treatment for dependent children from all the services.

Dr. Mourat returned to civilian life in March and since that time has served as a training consultant in child psychiatry at Walter Reed General Hospital in Washington and the Maryland Institute for Children in Baltimore, Md. He is a member of the teaching staffs at Children's Hospital of the District of Columbia, Hillcrest Children's Center, George Washington Medical College, and Johns Hopkins University. In addition, he is serving as a part-time senior psychiatrist at Patuxent Institute in Jes-

sup, Maryland, and conducts a small private practice.

DR. ROBERT M. PACKER, JR., 301 Summit Ave., Jenkintown, Pa., was recently appointed Chief of Metabolic Services at Abington Memorial Hospital, Abington, Pa.

1945

DR. DANIEL H. COLEMAN, 7851 N.E. 112, Kirkland, Wash., is the new president-elect of the King County Medical Society in Seattle.

1946

DR. OSCAR K. LANICH, JR., 2131 Easley, Waterloo, Iowa, is practicing Radiology in a group. He writes, "Three of us cover five hospitals in Northeast Iowa as well as a private office in Waterloo. This is the heart of the tall corn country and cattle land. The temperature this time of year is very brisk, hovering around 10°-20° below 0. The family has learned to like mid-west living. My wife and two teenage children are in good health. I met Dr. Carabasi at the American National Cancer Society meeting in Philadelphia this past fall."

DR. GAMEWELL A. LEMMON, JR., 1336 Badham Drive, Birmingham 16, Ala., is a Surgeon in a mixed specialty group in Birmingham. Dr. Lemmon writes that he is definitely planning on attending the 20th reunion of the Class of '46 in 1966.

DR. JAMES M. O'LEARY, 2612 Broad Ave., Altoona, Pa., is a Board Certified Surgeon doing General and Thoracic Surgery in Altoona. Dr. O'Leary is married to the former Patricia McCann and they have three children, Mary, Denis, and John.

DR. HERBERT L. WALTER, 21 Bridle Brook Lane, Covered Bridge Farms, Newark, Delaware, has joined the University of Delaware Health Service Staff.

1947

DR. JOSEPH N. ACETO, 170 King St., Northumberland, Pa., has been appointed to serve as Secretary of the Joint Committee on Chest X-ray in Liaison with the American College of Radiology. Dr. Aceto has served as Chairman of the Committee on

Chest Radiology of the A.C.C.P. for three years.

DR. WILLIAM FRANKLIN COX, 3rd, 5508 Kemper Rd., Baltimore, Md., has been named medical director of the American Health and Life Insurance Company.

DR. JOHN J. MEEHAN, The Benson Bldg., Jenkintown, Pa., was elected President of the medical staff of Holy Redeemer Hospital on January 10.

DR. LEWIS E. JONES, 1752 Morris Landers Drive, N.E., Atlanta, Georgia, was recently promoted to Professional Assistant to the Area Medical Director, Veterans Administration, Atlanta.

1948

DR. C. JULES ROMINGER, Misericordia Hospital, Philadelphia 43, Pa., spoke on "Radio Isotopes" at the 25th Anniversary Program of Nazareth Hospital on March 10.

1949

DR. PETER L. EICHMAN, 1300 University Avenue, Madison, Wisconsin, has been appointed Assistant Dean of Clinical Affairs for the University of Wisconsin Medical School.

DR. EDWARD A. SCHAUER, 53 Main St., Farmingdale, N.J., was elected Vice President of the New Jersey Academy of General Practice on January 20th at the annual meeting and scientific symposia of the Academy.

1951

DR. HARRY BORETSKY, 1005 W. Sutter Road, Glenshaw, Pa., writes, "I had the good fortune to meet BOB HALE at the meeting of the Pennsylvania Academy of General Practice in Bedford Springs last June. There may have been an eyebrow raised at an Anesthesiologist attending the meeting, but it was pure coincidence. It was great fun to catch up on the news with Bob."

DR. JASPER CHEN SEE, 415 Walnut St., Reading, Pa., writes, "I have recently resigned from the St. Joseph's Hospital in Reading, and

have undertaken the establishment of the private practice of Pathology. I have established the Quality Control Labs at 415 Walnut St., and find this phase of laboratory medicine most interesting and adventurous."

DR. JOHN T. GENEZKO, 1308 Columbus Ave., Bay City, Michigan, was installed as President of the Michigan Society of Anesthesiologists at their annual meeting in Lansing, Mich.

DR. ROBERT G. HALE, 4004 Fairway Road, Lafayette Hill, Pa., writes to Class Agents DRS. SWEENEY and McPEAK, "First congratulations and commiserations for a tough job well done. We are still in family practice in Lafayette Hill. Our three boys are growing long and lean after their pa. I am still very much interested and concerned with the future of general practice—to wit I have become a member of the Sponsoring Founders Group for an American Board of Family Practice. We in the AAGP and many others feel that in the Board we can create a renewed interest in 'family practice'—a concept of a new field with new defined perimeters with certification, a specialty, if you will, and an enticement to the new medical student to go into a field that has promise, prestige, and most of all, satisfaction."

DR. ALFRED R. JAMISON, JR., 3075 Sweetbrier Circle, Lafayette, Calif., writes, "IRV FISCH (Jeff '56) and I are with the Permanente Medical Group at Walnut Creek, Calif. There are 18 of us in Internal Medicine. Alma, my wife, and our five little ones are fine."

DR. EARL KANTER, 2 S. Frontenac Ave., Margate City, N. J., reports, "PETE CHODOFF is now back at Atlantic City to be Head of Anesthesia, which makes a total of four from '51 here: MORTON ROSENBLATT—Surgery, DAN DEMEO—Orthopedics, Pete as above, and me in Obstetrics and Gynecology. I ran into SAM STILLING '51 when he flew into A. C. Bader Airfield. I took up flying in 1960 as a hobby and now hold commercial and flight instructor rating and multieng. and instruments. I enjoy it very much."

DR. NICHOLAS P. KITRINOS, 14 Long-fellow Rd., Melrose, Mass., is doing Neurological Surgery at the U.S.N. Hospital in Chelsea, Mass. Dr. Kitrinis reports that he has been there two and one-half years, enjoys it very much. The Kitrinis have two children—Michele, 11, and Robbie, 7.

DR. HENRY E. LA VOICE, JR., 601 Marlton Pike, Erlton, N.J., reports, "No recent change in my practice or family. I am still in partnership with Ben Paradee and very satisfied. My family includes six children, ages $4\frac{1}{2}$ to 13."

DR. LESTER E. MCGEARY, 448 Ridge Ave., New Kensington, Pa., writes that his oldest daughter is now a freshman in college.

DR. ROBERT A. MCKINLEY, 121 Westchester Ave., White Plains, N. Y., headed a panel on "Team-work in the Educational Process" which was presented at Eastview School in White Plains on November 10. Dr. McKinley is on the board of directors of the Cage Teen Center and is active in the study of After-Care with the White Plains Council of Community Services.

DR. DEAN B. OLEWILER, 142 S. 13th St., Camp Hill, Pa., writes, "I'm still supervising and working in our mission hospital in Nigeria. It has expanded to 110 beds from 30 when I first arrived here 12 years ago. I do a lot of surgery and enjoy teaching Nigerian men to work as dispensers."

DR. GEORGE E. RIEGEL, 401 Broad, Sewickley, Pa., and Mrs. Riegel have three children, two daughters and a son.

DR. LEONARD SATTEL, 705 Kings Highway, Moorestown, N. J., is practicing Psychiatry in Cinnaminson, N. J. He spends one afternoon a week at Jeff in the Out Patient Department.

DR. FRED W. WACHTEL, Center Professional Bldg., 40 Union Ave., Irvington, N. J., writes, "I met Dr. Burgess Gordon at the VIII International Congress of Chest Sur-

geons in Mexico City. I gave a paper on 'The Electrocardiogram and Vectorcardiogram in Chronic Pulmonary Emphysema' and was Chairman of the Fireside Conference on Phonocardiography and Vectorcardiography."

DR. WILLIAM E. WALLACE, 1847 Hawthorne St., Sarasota, Fla., writes, "For the last year I have been in the private practice of neurological surgery here in Sarasota, practicing at the Sarasota Memorial Hospital. I am also on the neurosurgical consulting staff at the Venice Memorial Hospital in Venice, Florida, and the Bradenton Memorial Hospital in Bradenton. I was married in July 1964 to the former Marion Bier, who along with me is an avid swimmer and outdoor enthusiast. I am a member of the Congress of Neurological Surgeons, the International Congress of Neurological Surgeons and the Harvey Cushing Society. Marion and I hope to attend the forthcoming 15th anniversary of my class and will be looking forward to seeing members of the Class in Philadelphia next year."

DR. KEITH YOUNG, Park Ave., Edgewater Park, Beverly, N. J., was recently appointed to the Burlington County Welfare Board by the Board of Freeholders.

1952

DR. JOSE H. AMADEO, Box 10835, Caparra Heights, P. R., is Chief of Surgical Services, Veterans Administration Hospital, San Juan, and Associate Professor of Surgery at the University of Puerto Rico School of Medicine. Dr. Amadeo reports that he keeps up with the news from Jeff since he attends most of the major surgical meetings stateside.

DR. DAVID M. BARRY, 596 Hope St., Providence 6, R. I., spent two weeks in Turkey last September as a guest of the Middle East Neurosurgical Society and presented a paper on "Brain Scanning".

DR. JEROME I. BRODY, Graduate Hospital of the U. of Pennsylvania, 19th and Lombard Sts., Philadelphia, Pa., writes, "We've added

Marion Beth (age 1 year) to Lisa Ellen (3 years). I just received a USPHS Career Development Award, so I guess we're pretty well wedded to the U. of P."

DR. HARRY L. BAIRD, 1379 Garfield Place, Elizabeth 3, N.J., has been named an Associate Director of Clinical Research with Sandoz Pharmaceuticals, Hanover, N.J.

Dr. Baird

DR. RAYMOND L. CUNNEFF, JR., 298 Broad St., Red Bank, N. J., reports that he is very happy in the practice of Orthopedic Surgery in Red Bank. He is certified and also a Fellow of the American College of Surgeons. The Cunneffs have four sons.

DR. EDWARD W. DITTO, III, 217 W. Washington St., Hagerstown, Md., writes, "My wife and I just returned from Australia, New Zealand, and Tahiti, where we attended a U.C.L.A. sponsored seminar as part of the continued medical education program. We visited medical centers in Sydney, Canberra, Melbourne, Papete, etc. We toured wards, operating rooms, and other facilities. We also received much valuable information from various professors and department heads in the form of lectures, movies, and slides."

DR. ROBERT A. EBERSOLE, 319 West Holland St., Archbold, Ohio, writes, "We have four children ages 4, 8, 10, and 12. We all enjoy camping and in 1964 enjoyed this family activity in Colorado, Utah, and

Arizona. When at home in the summer, they are learning to water ski and do a lot of swimming."

DR. HOWARD FUGATE, JR., 145 E. 3rd St., Moorestown, N. J., writes that his eldest daughter, Kathy Joanne, is attending Elizabethtown College in Elizabethtown, Pa.

DR. JEROME J. LEBOVITZ, 1643 Shady Ave., Pittsburgh, Pa., was recently appointed Medical Coordinator of the Willis Center Branch of the Homestead, Pa., Hospital. The Center is a convalescent wing of the general hospital and contains 76 beds. It is scheduled to open on March 15th.

DR. JOHN MCD. MCGEEHEE, 1653 Spring Hill Ave., Mobile, Ala., was recently appointed Assistant Clinical Professor at the University of Alabama. Dr. McGehee and his wife, Helen, have two children, Dan, 6, and Robert Bruce, 18 months.

DR. ALVIN MERKIN, 1108 Rock Creek Drive, Wyncote, Pa., writes to Class Agent Dr. Robert L. Evans, "A few things have happened since I saw you last. I have three girls, age 3, 6, and 8. We moved from Miami Beach back to Philly. I left G.P. and completed my Anesthesia training at P.G.H. I now am Chief of the Department of Anesthesia at the AFL-CIO Hospital in Philly. This essentially is a new 230-bed community hospital with tremendous potential. I am Vice President of the Medical Staff, Chairman of the Joint Conference Committee and a member of the Executive Committee. Anesthesia is a major and separate department at this hospital."

DR. JOHN G. O'HURLEY, Suite 401, 140 Woodland St., Hartford, Conn., was recently made Visiting Otolaryngologist at St. Francis Hospital.

DR. ROBERT E. STOUT, Hampton Medical Arts Bldg., 3116 Victoria, Hampton, Va., is in his sixth year of practice in Hampton in Internal Medicine. The Stouts have three children—Christopher, 9, Barbara Jean, 4, and Diane Leigh, 18 months.

DR. LYLE D. VINCENT, JR., 1308 Market St., Parkersburg, W. Va., is the new Chief of Staff at St. Joseph's Hospital and is President-elect of the West Virginia Diabetes Association.

1953

DR. JOSEPH H. CARTER, 905 Hilltop Rd., Erie, Pa., was elected secretary of the medical staff of Hamot Hospital at the staff's annual meeting.

DR. JOHN M. LEVINSON, 1708 Talley Rd., Forest Hills Park, Wilmington 3, Delaware, returned to this country December 19th after spending a month in Saigon with a group of physicians who minister to the natives and teach local doctors to care for their own. This is the second trip he has made to Vietnam under this project. Dr. Levinson has founded an organization called Aid for International Medicine. This organization sends medicine to Vietnamese hospitals for use in their work.

1954

DR. HAROLD J. BYRON, Wyncote House, Washington Lane and Township Line, Wyncote, Pa., has been named Psychiatric Consultant at La Salle College. He has also been appointed Clinical Associate in Psychiatry and Neurology at Woman's Medical College.

DR. DONALD H. FREEMAN, 59 Skyline Drive, Mankato, Minnesota, writes, "We are now living in Mankato, since I have joined the 23 man group practice, namely the Mankato Clinic. I make the sixth internist in the group and the only hematologist. We hope that anyone from Jeff to vacation in this beautiful state will stop to see us."

DR. THEODORE A. GARCIA, 481 Orchard Rd., King of Prussia, Pa., has been appointed to the staff of Montgomery Hospital with major and minor privileges in Ophthalmic surgery.

DR. JOWN W. GORDON, II, N.E. Cor. Swarthmore Ave. and Chester Pike, Ridley Park, Pa., has been

elected Vice President of the Chester Pike Rotary Club.

DR. JAMES F. WELSH, Community General Hospital, Reading, Pa., recently assumed his new duties as Pathologist of Community General Hospital. Dr. and Mrs. Welsh have three children—Karen, 14, James, 8, and Michael, 5.

1955

DR. CARL W. BOYER, OSC Box 36, Walter Reed General Hospital, Washington, D. C., 20012, writes, "After transfer from Hawaii, I began a fellowship in Radiation Therapy this summer. We are presently getting used to winter again, and expect to be in this part of the country for another three or four years."

DR. RICHARD BROWN, Children's Hospital Society of L.A., 4614 Sunset Blvd., Los Angeles, Calif., is Associate Cardiologist at Children's Hospital and Assistant Professor at U.S.C.

DR. ROBERT D. CORDIER, 1426 Tiffany Circle, Roseville, Calif., retired from the U.S. Navy after nine years of service; he did his residency in Surgery at Oakland Naval Hospital, 1956-1960; spent one year in Plastic Surgery training; and was stationed at the U.S. Naval Hospital, Long Beach, Calif., from 1961-1964. Dr. Cordier is now in private practice in Roseville. Dr. Cordier reports that he has four boys, two girls, and one beautiful wife, and is enjoying his practice very much.

DR. WILLIAM P. HENDERSON, 520 Hume Mansur Building, Indianapolis, Indiana, is practicing Obstetrics and Gynecology.

DR. JOSEPH R. JOHN, 3610 Bonner Rd., Pensacola, Fla., writes, "At last, nine long years after graduation, I have finally started practice. After time spent in General Practice, the U.S. Army, Surgery

residency, Radiology residency, and a one year Radiology Fellowship. I have joined the staff of the Medical Center Clinic of Pensacola. This is a rapidly expanding forty man group of all specialists. The three radiologists on the clinic staff serve Sacred Heart Hospital in Pensacola. My wife, Dawn, and I have three happy and healthy children—Stephanie, 7, Joseph, III, 5, and Alison Ann, 4."

DR. WILLIAM L. KANENSON, 1122 Countryside Drive, Harrisburg, Pa., is practicing Internal Medicine in a partnership in Harrisburg. "In addition to my three-year-old daughter, I have a new son, Ross Howard, who is three weeks old as of this writing. Practice is booming and life is good!"

DR. ANDREW J. KAPCAR, 3608½ Staunton Ave., S.E., Charleston, W. Va., is now an Associate Pathologist at Memorial Hospital in Charleston. Dr. and Mrs. Kapcar will celebrate their second wedding anniversary on June 1.

DR. ROBERT M. KLINE, 9 E. Walnut St., Lebanon, Pa., writes that he is planning to go to Europe for a month starting in May and is hoping that he'll be back in time to attend the reunion.

DR. WILLIAM A. LISTA, 4200 State Road, Drexel Hill, Pa., is practicing Internal Medicine in Drexel Hill. Dr. and Mrs. Lista have two children—Anthony, 5 and Leslie, 2½.

DR. JULIUS L. MARKOWITZ, 9136 Claire Ave., Northridge, Calif., is entering his fourth year with the Permanente Medical Group of Southern California in the San Fernando Valley in Los Angeles. Dr. Markowitz obtained Board Certification in Obstetrics and Gynecology in 1964.

DR. MICHAEL J. McNALLY, 830 N. Tejon, Colorado Springs, Colo., completed his residency at the Cleveland Clinic and is in private practice in Neurosurgery in Colorado Springs. Dr. and Mrs. McNally have three children.

DR. JOSEPH A. MILLER, 1537 Turner St., Allentown, Pa., and DR. CHARLES F. SCHULTZE, 1421 State St., Santa Barbara, Calif., were both installed as Fellows of The American College of Obstetricians and Gynecologists at its Annual Meeting, April 4-8, in San Francisco.

DR. JAMES A. MURRAY, 502 Van Buren St., Fostoria, Ohio, writes, "Norma and I are fine. I am still going strong in G.P. and hope Jefferson continues to endeavor to produce well trained men (and women) as 'Family physicians'. We intend to be present for the 10th class reunion and hope many others will do likewise."

DR. PAUL M. SELFON, Apt. 40J, 4970 Battery Lane, Bethesda, Md., is presently working for the Device Branch of the Food and Drug Administration in Washington, D. C.

DR. JAMES A. SINGLETON, Doctors Park, 701 North Walnut, Springfield, Ill., was Board certified in Obstetrics and Gynecology this past summer.

DR. JOHN N. SOURBEER, 202 Harbor View Lane, Largo, Fla., is in his eighth year of general practice on the west coast of Florida and writes that he is enjoying it very much. "Nelle and I plan to be at the ten year reunion in June '65. Jeff, Jan, Jon, and Jay will stay home this time."

DR. ROBERT C. SPAGNOLI, 706 Howell Drive, Brielle, N. J., has been practicing Radiology in the Brielle area for approximately two years. He is one of a group of four Radiologists and is kept quite busy. Dr. and Mrs. Spagnoli have seven children, five girls and two boys, ranging in age from 10½ years to four months.

DR. F. WILLIAM SUNDERMAN, JR., Associate Professor of Pathology, University of Florida College of Medicine, Gainesville, Fla., is the new national President of the Association of Clinical Scientists. Dr. Sunderman is Director of Clinical

Laboratories at the University Hospital and Clinics of the J. Hillis Miller Health Center.

DR. THOMAS B. TEMPLETON, 331 Colony Rd., Statesville, N. C., has accepted the post of medical representative for the Iredell Heart Association. Dr. Templeton is currently an Instructor in Clinical Internal Medicine at Bowman Gray School of Medicine in Winston-Salem.

1956

DR. FREDERICK V. BALDI, 1244 Norfolk Way, Sacramento, Calif., writes, "I am still out here in sunny California. My family is growing fast."

DR. THOMAS G. BELL, 122 Weaver St., Clearfield, Pa., has been certified as a Diplomate of the American Board of Internal Medicine. Dr. Bell is the first Clearfield County physician to be certified as a specialist in Internal Medicine.

DR. JOHN M. DANIEL, 200 Granville Ave., Beckley, W. Va., is in the practice of Internal Medicine. Dr. and Mrs. Daniel have four children.

DR. PAUL DRUCKER, 12 Woodruff Rd., Metuchen, N. J., writes, "I moved into my new office with my associate Jerry Finkel in May. We have lots of space and everything we need. All is well and am very happy with our practice."

DR. PAUL J. DUGAN, 1432 Tiffany Circle, Roseville, Calif., writes, "We are all fine here in Roseville. Our group of five G.P.'s including BILL ANTHONY '55, will add a sixth man in January '65. BOB CORDIER '55 is a new addition to the Roseville medical community. He recently opened his office in General Surgery and is already busy with Jeff 'refusals'."

DR. HILLARD C. GERSTEN, 311 N. Lake Drive, Lakewood, N. J., completed his residency in Anesthesiology at Columbia Presbyterian Hospital in July 1963. Dr. Gersten

is presently Chief of Anesthesiology at Paul Kimball Hospital in Lakewood.

DR. REX W. GREEN, 247 N. 13th St., Allentown, Pa., reports, "I am doing general practice in Allentown and am also the plant physician for Mack Trucks out here. For diversion, I own and drive a three-quarter midget race car. Our circuit includes Pennsylvania, New Jersey, New York, etc., and I find this a very fascinating sport and hobby. It's a long way from medicine, but there must be other medical men who have similar interests, and perhaps they would care to contact me."

DR. JOSEPH H. HOBBS, 218 Mahantongo St., Pottsville, Pa., is currently engaged in the construction of the York Terrace Nursing and Convalescent Home. Dr. and Mrs. Hobbs have six children—four girls and two boys.

DR. J. HAROLD HOUSMAN, Shirati Hospital, Tarime, Tanganyika, East Africa, writes, "We now have a two-way radio communication with about 40 other Mission Hospitals plus with specialists in Nairobi, which is very valuable for consultation. There is one Jefferson graduate, MATT JOHNSON (Class of '49), moving to Kenya, which is 300 miles away. I will be able to consult with him via radio."

DR. C. WARREN KOEHL, JR., Elmcrest Drive, Dallas, Pa., writes, "We are enjoying our home here in the Wyoming Valley. I have been the Associate Pathologist at the Wilkes-Barre General Hospital for the past 2½ years."

DR. EDWARD W. LUCZYNSKI, JR., 17 Fairview Ave., Randolph Township, Dover, N. J., writes, "I am practicing Internal Medicine in Dover. I completed my Boards in Internal Medicine in April of last year and am an Associate Attending in Medicine at Dover General Hospital and St. Clare's, Denville."

DR. THEODORE J. MARSHALL, 1750 N. Palafax St., Pensacola, Fla., is presently practicing Psychiatry with the Medical Center Group. Dr. Marshall reports that JOSEPH

JOHN '55 is joining the Clinic's Department of Radiology.

DR. NEIL DOUGLAS MARTIN, 111 Britton Way, Mather AFB, Calif., has successfully completed his Boards in Internal Medicine. Dr. Martin is presently Chief of the Department of Medicine at 3535th USAF Hospital at Mather AFB.

DR. KENNETH J. MCGRATH, 1459 Merritt St., El Cajon, Calif., writes, "I'm still living it up in southern California with a full life and full general practice. I hope to get back some year to see all the changes at Jefferson."

DR. GORDON W. MELLA, LCDR, MC, USN, NMMC, USNH, Bethesda, Md., is on the Pediatrics Staff at Bethesda and on the teaching staff at Georgetown University Medical School and reports that he is really enjoying himself. Dr. and Mrs. Mella have three sons.

DR. SHELDON B. MEYERSON, 1680 Meridian Ave., Miami Beach, Fla., is in his second year of Neurosurgical residency at Jackson Memorial Hospital.

DR. THOMAS G. O'BRIEN, Children's Hospital Medical Center, Boston, Mass., has been awarded a Fulbright Scholarship for the study of medicine at Birmingham, England. Dr. O'Brien will study at the University of Birmingham Medical School, Queen Elizabeth's Hospital.

DR. JOSEPH P. RAVIN, 155 Boxwood Circle, Hamburg, N. Y., writes, "To bring you up to date, Dr. Carl E. Villarini and I formed a partnership in January 1963. We built our own office building which we occupied May 1, 1964. Things have been picking up and as of November 1, 1964, we took on a prospective third member. My wife, Stasia, and I still have 'only' two children—Paul now 7½ and Deborah Ann, 6½. I see that TOM O'BRIEN carved Cassius Clay, but where is PAUL McDONOUGH? If anyone manages to get up this way, stop by and see us."

DR. BERTRAM H. SHAPIRO, 50 Glenwood Ave., Jersey City 6, N. J., writes, "I have been very fortunate

in obtaining my certification as a Diplomate of the American Board of Anesthesiology this past October. I am still engaged in practice at the Medical Center here in Jersey City."

DR. H. MARTIN SNYDER, 1021 E. 9th Ave., Winfield, Kansas, reports that he has qualified for the Thoracic Boards and is practicing General and Thoracic Surgery in Winfield.

DR. CHARLES J. STAHL, III, U.S.N. Hospital, Navy #926, FPO San Francisco, Calif., writes, "I am presently assigned to the U.S. Naval Hospital, Guam, as Chief of Laboratory Service. I also serve as Deputy Medical Examiner for the Territory of Guam. In April, 1964, I became a diplomate of the American Board of Pathology in the special field of forensic pathology."

DR. WILLIAM H. STENNIS, JR., Eastern Pennsylvania Psychiatric Institute, Henry Ave. and Abbotsford Rd., Philadelphia 29, Pa., is practicing Child Psychiatry in Chestnut Hill, is Director of the Out Patient Clinic of Child Psychiatry at Albert Einstein Medical Center, Northern Division, and is Consultant to the Bucks County School System.

DR. HENRY H. L. YIM, 45-939 Kamehameha Highway, Kaneohe, Oahu, Hawaii, is practicing in his hometown of Kaneohe. The Yims have two children—Gregory and Robyn Liz. Dr. Yim writes that JOHN CARSON lives only one block away, and is also practicing in Kaneohe.

1957

DR. CESARE R. ANTONIACCI, 67 Clinton Ave., Millburn, N. J., was board certified in Psychiatry in December by the American Board of Psychiatry and Neurology.

DR. FRANCIS F. BARTONE, University of Kansas Medical Center, Kansas City, Kansas, is presently finishing his General Surgery residency at the University of Kansas. He took

a residency in Urology at Jeff and reports that he is primarily interested in academic Urology.

DR. ROBERT K. BROTMAN, Philadelphia State Hospital, Southampton Rd. and Roosevelt Blvd., Philadelphia, Pa., writes, "I am still up here at the funny farm. Joyce is a resident in Radiology at Albert Einstein. I was promoted to Clinical Director on January 1. I'm trying to get ready for Boards."

DR. LAWRENCE R. COOPERMAN, 23 Sorensen Rd., West Haven, Conn., writes, "The tennis is still struggling along; I play indoors about once a week. During the past six weeks, I have been studying for Board exams, which are now over, thankfully."

DR. DONALD P. ELLIOTT, Dept. of Thoracic Surgery, University of California Medical School, San Francisco, Calif., writes, "I am currently serving as Chief Resident in Thoracic and Cardiac Surgery at the Univ. of Calif. Hospital. In June, my wife Freda, Julie, 8, Cindy, 6, and Tom, 4, and I will return to Denver where I will be an Instructor in the Department of Surgery."

DR. J. RONALD HALENDA, Media Clinic, Media, Pa., writes, "I'm at the Media Clinic, which is a 23-man specialty group. My field is Pediatrics which includes a full practice along with research at Children's Hospital and Penn where as a part of the Virus Research Team, I am engaged in the development of live virus vaccines for measles, mumps, German measles, chicken pox, and flu. I am still single, leading a gay bachelor's life in my home in the country at Blossom Hill, Wawa, Pa."

DR. STANLEY L. KOCOT, 28 Sherwood Hill Dr., Holden, Mass., is in the private practice of Internal Medicine and Cardiology at 27 Elm St., Worcester, Mass. He is a member of the "Heart Team" (for open-heart surgery) and staff member of St. Vincent Hospital in Worcester. Dr. Kocot and his wife, Mary, have five children—Thomas, 1, Kathy, 3, Larry, 4, Susan, 6, and Nancy, 8.

DR. MAX M. KOPPEL, Northeast Medical Center, 7310 Castor Ave., Philadelphia 15, Pa., is in the private practice of Urology, an Instructor in the Department of Urology, and has been appointed a consultant in Urology at the Elwyn School. He is married and is the father of three girls.

DR. ALLAN LAZAR, 409 Conrad Rd., Englewood, N. J., writes, "At the present time I am an Associate in Pathology at Columbia University College of Physicians and Surgeons, where most of my time is devoted to research. On Thanksgiving Day we welcomed our fifth child, second son, Michael. We're living in Englewood, which is semi-rural; its proximity makes it convenient."

DR. JAMES T. MADDUX, 304 West Corriher Ave., Salisbury, N. C., recently assumed his new duties as Associate Pathologist at Rowan Memorial Hospital. Dr. and Mrs. Maddux have two children, Denise, six, and Susan, three.

DR. JOHN T. MAGEE, Bryn Mawr Medical Building, County Line Rd. and Lindsay Ave., Bryn Mawr, Pa., passed his Boards in April, 1964, and is presently in the private practice of Nephrology and Internal Medicine.

DR. MICHAEL A. ORIENTE, 918 Catherine St., Philadelphia, Pa., is in General Practice in South Philadelphia. He has three children, two boys and a girl.

DR. RUDOLPH W. PAVICH, Bethlehem Steel Co., Box 248, Chester-ton, Indiana, writes, "I have been appointed Plant Surgeon of the new Bethlehem Steel Company's plant in Indiana. It's quite a challenge. We still have four children."

DR. ROBERT J. POSATKO, 403 Garman St., Jacksonville, N. C., writes, "I am currently a member of the Obstetrical staff at U.S. Naval Hospital, Camp Lejeune, N. C., My immediate plans are to get out of the Navy in August, 1965, and set up practice in Obstetrics and Gynecology somewhere in the Philadelphia area."

DR. JOHN R. PREHATNY, 615 Cypress Ave., Yeadon, Pa., writes, "I finished my surgical residency at Jeff. July, 1964. I have opened an office at the Methodist Hospital Medical Building for the practice of General and Thoracic Surgery. I have staff privileges at Pennsylvania, Misericordia, and Methodist Hospitals, and am Instructor in Surgery at the University of Pennsylvania School of Medicine. I am doing research on assisted circulation at Misericordia."

DR. MARVIN A. SACKNER, 5133 N. Bay Road, Miami Beach, Fla., was recently selected as one of the 80 distinguished alumni of Temple University. He was a participant in the Aspen Conference on Emphysema in June 1964 and spoke on "Functional Volumes of the Pulmonary Circulation". He is presently serving as Assistant Professor of Physiology at the University of Miami School of Medicine.

DR. NORMAN S. SHERWOOD, 444 Community Drive, Manhasset, N. Y., his wife, Gail, and children Scott and Mara are presently living in Cryder House, Whitestone, N. Y., and enjoying their new surroundings. Dr. Sherwood is practicing Urology in Manhasset and is on the Urology Staff of Downstate Medical School.

DR. FRANK B. THOMAS, III, 121 High St., Hancock, Md., writes, "At our house the only news is our annual add-a-baby edition. Rosemarie, our sixth, was born in March. General Practice is hectic, but rewarding. We would appreciate a helping hand if anyone is interested in General Practice."

DR. DONALD P. YADUSKY, Lansdale Clinic, So. Broad St. at Allentown Rd., Lansdale, Pa., and his wife, Cathie, and their three children—Julianne, Donnie, and Stephanie—have moved to Lansdale. Dr. Yadusky has joined the Lansdale Clinic where he practices Internal Medicine. He was discharged from the Army in December after serving a three-year active tour of duty in Germany.

DR. RONALD J. YADUSKY, 75 A Clifton Road, Jersey City, N. J.,

writes, "My wife and our five children are with me in Jersey City while I complete a Thoracic Surgery residency at the B. S. Pollak Hospital. Regards to all our Jefferson friends."

1958

DR. FRANK T. CARNEY, 244 Luzerne St., Johnstown, Pa., is in the practice of Urology and is presently studying for his Boards.

DR. JOHN A. CRAIG, Nanticoke Memorial Hospital Professional Building, Seaford, Delaware, spoke on October 30th at a symposium on Blood Volume in Clinical Medicine at the International Hotel in Los Angeles. He spoke on toxemia of pregnancy, which, he said, is the most important remaining cause of maternal mortality. Dr. Craig said it always had been thought that the amount of blood in a patient decreased during toxemia of pregnancy. But Dr. Craig now has determined that blood volume increases instead. This new insight, he told the group, may aid in finding the cause of the disease because it leads researchers into different areas to explain the increased blood, which apparently is a consequence of whatever causes the disease.

DR. FARRELL R. CROUSE, 1003 Penn Ave., Wyomissing, Pa., writes, "I finished my residency in Psychiatry June 1962 at Jeff, then served for two years in the U. S. Navy, stationed at U. S. Naval Hospital in Portsmouth, Va. I was discharged as Lt. Cdr. in July, 1964. Since then I have been in private practice. My wife and I have one two-year-old son."

DR. DONALD N. DUBROW, 3740 Alta Vista Lane, Dallas, Texas, writes, "I am now half way through my second year of residency in Internal Medicine at Baylor University Medical Center, Dallas, Texas. In July we bought a home with enough ground to camp out on. Needless to say, we have plenty of living space and the welcome mat is always out for my friends from Jefferson, of whom there are nil in this city. Y'all come, as we have said in the past."

DR. RICHARD E. ESHBACH, 328 Cressman Rd., Harleysville, Pa., is a staff physician at H. R. Landis State T.B. Hospital. He has plans to open an office for the practice of general medicine in Worcester, Pa.

DR. JULIAN D. FELDMAN, 255 S. 17th St., Philadelphia, Pa., was installed as a Fellow of The American College of Obstetricians and Gynecologists at its Annual Meeting, April 4-8, in San Francisco.

DR. BERNARD GOODMAN, 1447 El Verano Drive, Thousand Oaks, Calif., recently completed a residency in Psychiatry and is now doing Out Patient Clinic work. He reports that Psychiatry is an interesting field and one for which there is a great need.

DR. JAMES E. MCGRATH, 1168 Maplecrest Ave., Gladwyne, Pa., completed his residency in Radiology in August, 1964, and is now practicing Radiology at Our Lady of Lourdes Hospital in Camden, N. J., and at the American Oncologic Hospital, Philadelphia, in addition to private practice at 136 South 16th St., Phila. Dr. and Mrs. McGrath have three children.

DR. GINO MORI, 1705 Jefferson Ave., Dunmore, Pa., passed Part II of his Surgery Boards this past June.

DR. DONALD E. PRAISS, 1566 Mt. Ephraim Ave., Camden 4, N. J., has been appointed a Ross V. Patterson Fellow. He is presently a second year Resident in Urology at Jefferson. Dr. and Mrs. Praiss have a nine-month-old daughter, Donna Marie.

DR. CHARLES L. REESE, III, Professional Building, Suite C-6, Augustine Cut-Off, Wilmington, Delaware, writes, "I passed my Neurology Boards in December, 1964, so feel I really can practice legally."

DR. RICHARD R. VANDERBEEK, Hilltop House, Apt. B-4, 333 Lacey Ave., Doylestown, Pa., is now practicing Internal Medicine in Doylestown and reports that he has passed his Boards.

DR. WILLIAM J. WARREN, R.R. #1, Box 148-A, Furlong, Pa., recently passed his Anatomic and Clinical Pathology Boards. His tour of duty in the Navy will be completed in July, when he plans to return to the Pathology Department at Jeff.

DR. ALBERT B. WOLBACH, JR., 1243 W. Main St., Ephrata, Pa., has moved to a new combined home and office and is busily occupied in General Practice.

1959

DR. STUART B. BROWN, Boston Children's Hospital, Boston, Mass., writes, "I completed my Pediatric Neurology Fellowship at Boston Children's Hospital and am now on the full-time staff here and at the Peter Bent Brigham Hospital doing adult and Pediatric Neurology. I have a teaching appointment at Harvard Medical School to round out the agenda and help keep me busy. We're all well and would be pleased to hear from anyone passing through the area."

DR. NATHANIEL PAU HEN CHING, 44th SHMA, APO, San Francisco, Calif., sends news via Dr. Kenneth Fry, who in turn forwarded it to the Alumni Office. Dr. Ching writes, "I am stuck near the DM2 in Korea, far from civilization with the rugged country of Korea all around. It's a poor country with poor sanitation. We operate on the Korean people around us; carcinoma of the stomach is common as is Tbc. The G.I.'s are usually breaking legs so we send them further back for the long term convalescence. I have met several Koreans trained in surgery in the U.S. who come back to their country generally to starve with no facilities or patients who can afford to be operated on by them. A few of them get to teach in the universities, but there is one close to us who is trying to get equipment from the U.S. government to equip his hospital. They have the talent, but no hospitals for them to work in.

"Travel is difficult in this country, so I have been pretty much stuck in our compound. I got away a couple of times to Seoul and also to take Part I of the Surgical Boards."

DR. HOWELL E. COOK, JR., D.D.S., 5801 Ventnor Ave., Ventnor, N. J., spoke before the Mercer County Dental Society at their September (1964) meeting on "Medical Problems Currently Seen in the Dental Office".

DR. DAVID M. GEETTER, 65 E. Robins Ave., Newington, Conn., is a resident in Neurosurgery at Hartford Hospital, Hartford, Conn.

DR. LEONARD F. GREENBERG, 944 E. Johnson St., Philadelphia, Pa., is completing his Fellowship in Cardiology at the Albert Einstein Medical Center, Northern Division, and will enter private practice in July.

DR. MALCOLM KATES, 1715 Spruce St., Philadelphia, Pa., recently opened an office for the practice of Internal Medicine. He has been appointed Instructor in Medicine at Jefferson and an Attending Physician on the Jefferson Medical College Hospital service at P.G.H.

DR. WALTER L. MCCONNELL, Berkshire Valley, RD 1, Wharton, N. J., has a new home in Berkshire Valley, situated on 44 acres adjacent to the State Game Preserve. In his spare time, Dr. McConnell with his four children hunt, fish, and take part in conservation programs. He reports that his medical practice is growing and that the medical group he is associated with now consists of 11 men.

DR. CHARLES L. McDOWELL, 138 Euclid Ave., Hackensack, N. J., is completing his residency at Columbia-Presbyterian Hospital in New York.

DR. ALBERT C. PRICE, U.S.N. Hospital, Charleston, S. C., was recently certified by the American Academy of Pediatrics. As of July 1, he will begin a Fellowship in Cardiology at Children's Medical Center, Boston.

DR. GARY P. ROMISHER, Zurbrugg Memorial Hospital, Riverside, N.J., is a Radiologist at Zurbrugg Hospital. Dr. and Mrs. Romisher have two sons and a daughter.

DR. WILLIS G. STOSE, Medical Arts Building, 1012 Volusia Ave., Daytona Beach, Fla., announces his association with DR. THURMAN GILLESPIE, JR., ('53), DR. GILBERT A. MARTIN, JR., ('54), and another doctor in the practice of Orthopaedic Surgery.

DR. JAMES R. WIAINT, Mt. Kipp, Glen Gardner, N. J., is presently Assistant Medical Director of the New Jersey State Sanatorium. The Wiant's have three children.

1960

DR. JITENDRA R. BHATT, Southern California Permanente Medical Group, 13652 Cantara St., Panorama City, Calif., writes, "I have completed my Obstetrics and Gynecology residency at Akron General Hospital and joined a group practice in the San Fernando Valley. I am one of eight Ob-Gyn men in the group. The quality of medicine is without question quite excellent. The family life is the most rewarding part of such a group practice. I presented a paper before the District V meeting of the American College of Obstetricians and Gynecologists for which I received second prize. We now have three children. Sheila was born in Akron last year."

DR. JOHN P. BRENNAN, 60 Marlborough Ave., Wilkes-Barre, Pa., is currently a medical resident at the Veterans Administration Hospital in Philadelphia.

DR. JAMES D. BRUBAKER, Box 626, Aibonito, P. R., is now helping to staff a mission hospital in the hills of Puerto Rico. "Statistically I think we three physicians do rather well, with around 800 deliveries, 30,000 out patients, and 600 surgeries, annually."

DR. GORDON R. COHEN, Mt. Zion Hospital, 1600 Divisadero St., San Francisco, Calif., is completing his fourth year as a Fellow in Child Psychiatry in San Francisco. His assignment in the Public Health Services for next year is still uncertain but the Peace Corps or NIMH are the two possibilities. Dr. Cohen reports that the two children are looking forward to the

move East and the snow, but that he and his wife will be leaving San Francisco with mixed feelings.

DR. G. ROBERT CONSTABLE, 506 Gainboro Rd., Drexel Hill, Pa., is in his second year of residency in Internal Medicine. The Constables have two children—Kathy, 3, and Scott, 18 months.

DR. RICHARD H. DUNKELBERGER, Cook County Hospital Harrison and Woods Sts., Chicago, Ill., writes, "I'm enjoying my second year in medicine residency at Cook County Hospital. My wife, Gayle, and I are happily watching our son, Willy, grow up. He was one-year old this month."

DR. SHERMAN W. EVERLOF, 646 W. Springfield Rd., Springfield, Pa., writes, "I've completed my residency in Obstetrics and Gynecology at Fitzgerald Mercy Hospital and have opened my office in Springfield. We now have two children, a boy, three and a girl, 17 months."

DR. JOHN N. GIACOBBO, 2400 S. 21st St., Philadelphia, Pa., is practicing Pediatrics in South Philadelphia. Dr. Giacobbo reports that he will be taking his Boards this year.

DR. DAVID GREEN, 2543 Burgener Blvd., San Diego, Calif., is presently serving in the U.S. Navy, stationed at San Diego Naval Hospital. His daughter, Jo Ellen, is now 2½, and his son, Daniel, six months.

DR. JOHN M. HESS, 1249 Adams St., Fairborn, Ohio, writes, "I am now 'Chief,' thanks to Uncle, at U.S.A.F. Hospital, Wright Patterson AFB. I consider this the best assignment in the Air Force, except perhaps Lackland in Texas. Cases and working conditions are excellent. My partner anesthesiologist is from Portland, Oregon. I am still driving the Porsche, skiing, and getting more gray hair over the three kids—no dogs yet."

DR. JOHN HETHERINGTON, JR., 16 Adolph Sutro Court, San Francisco, Calif., writes, "I am at pre-

sent completing a four-year residency in Ophthalmology at the University of California Medical School. Our plans for next year are indefinite, but are limited to either a year's training in London or private practice in Northern California.

DR. J. FREDERICK HIEHLE, 240 Lincoln Ave., Woodbury Heights, N. J., is presently in Philadelphia as a first year resident in Radiology at the U. S. Naval Hospital.

DR. MICHAEL B. HRESKO, 415 W. State St., Media, Pa., is presently a resident in Psychiatry at the Institute of Pennsylvania Hospital in Philadelphia.

DR. EDWARD KAUFMAN, R.D. # 1, Milton, Pa., writes, "Following my internship at L.A. County, I took a three-year residency in Psychiatry at the New York Psychiatric Institute and Columbia Presbyterian Medical Center. While there I spent two years as a candidate at the Columbia Psychoanalytic Clinic and taught Psychosomatic Medicine at P&S's undergraduate and Dental Schools. Currently I am Chief of Psychiatry at the Lewisburg Federal Penitentiary and Psychiatric Consultant to Bucknell University."

DR. HERBERT D. KLEBER, 305 Glen-dover Drive, Lexington, Ky., is working at the U. S. Public Health Service Hospital in Lexington, treating narcotic addicts.

DR. HAROLD J. KOB, 6400 Pinefield Rd., Columbia, S. C., is currently stationed at Fort Jackson, where he is the post Cardiologist. Dr. Kobb reports that aside from Army regulations, he and his family are having a great time.

DR. MARVIN E. LAUTT, 2023 Central Ave., McKinleyville, Calif., entered private practice on August 10th. The practice is new and solo.

DR. DEAN B. MERGENTHALER, 5035 S.W. 88th Ct., Miami, Fla., 33165, was recently awarded the Commendation Medal. The citation which accompanied the medal read: "In recognition of his outstanding

contribution to his country and the Public Health Service in volunteering to fly to Cuba, to examine, for quarantine purposes, prisoners of the Bay of Pigs invasion who were being allowed to come to the United States as part of the Cuban Prisoner Exchange. He performed these examinations under almost unendurable hardships. He worked continuously on a sun-baked runway under guard by armed Cuban militiamen without eating or sleeping from 6:00 a.m., December 23, 1962, to 10:00 p.m. the next day. Dr. Mergenthaler's mission was the first of its kind. He demonstrated extraordinary courage at the risk of personal safety."

DR. PAUL L. MITCHELL, 430 E. 67th St., Apt. 9-J, New York, N. Y., is in his second year of residency in Medicine at Memorial Hospital. He recently completed two years' service with the Public Health Service. His service time was spent working on the National Diet-Heart Study at the laboratory of Dr. Ancel Keys in Minneapolis.

DR. JOHN T. MURRAY, Dept. of Ear, Nose and Throat, Manhattan Ear and Eye Hospital, New York, N. Y., reports that he saw ARCH and Fran MEREDETH off on the S.S. *United States* in September for his three-year stint just outside of London.

Dr. Rykiel's children

DR. GEORGE N. RIFFLE, Johns Hopkins Hospital, Dept. of Urology, Baltimore, Md., writes that he will be returning to Jefferson in July (after five years absence) for the last two years of Urology residency.

DR. FRANK K. RYKIEL, 200 Lake Dr., Bellmawr, N. J., is presently taking a course at the University of Pennsylvania Graduate Hospital. Dr. Rykiel writes, "The family is doing well; we stopped growing for awhile, I hope! Enclosed is a picture of our two little ones. By the way, this picture might become a collector's item. Since it was taken, I don't think they've sat still for a minute."

DR. JOSEPH B. SHAW, 320 Main St., Manchester, Conn., writes that he has finished his residency in psychiatry at the Institute of Living in June, 1964, and is now in private practice in Manchester and on the staff of the Manchester Memorial Hospital. He had also assumed the responsibility as Medical Director of the Outpatient Mental Health Clinic at the Windham Community Memorial Hospital, Willimantic, Conn.

DR. EDWARD F. SWARTZ, 7033 N. 15th St., B-3, Philadelphia, Pa., is presently in his second year of residency in Obstetrics and Gynecology at Temple University Hospital. Prior to his residency, Dr. Swartz served for two years in the U. S. Army stationed in the Pacific Northwest and in Germany.

DR. LUKE G. TEDISCHI, 939 Edmunds Road, Framingham Centre, Mass., recently returned from Navy duty in California and is now practicing at Framingham Union in Framingham, Mass.

DR. FRANCIS W. WACHTER, 919 Pine St., Apt. 4, Philadelphia, Pa., writes, "Not much exciting news to report. Residency is progressing nicely and otherwise I am just moseying along. I do enjoy being in Philly again and occasionally I see someone from Jeff. Just recently I saw GARY CARPENTER out at St. Christopher's where I have been going this month for Pathology."

DR. ROBERT A. WEISS, 2951 South Parkway, Apt. 1603, Chicago, Ill., is currently a Fellow in Cardiology at Michael Reese Hospital and enjoys it very much.

DR. H. EARL WENTZEL, #8 Chester Pike, Ridley Park, Pa., recently won first prize for an exhibit entitled "Atopic Dermatitis—An Inborn Error in Cutaneous Norepinephrine Metabolism" in the scientific advancement category at a meeting of the American Academy of Dermatology in Chicago.

DR. WILLIAM J. WEST, 318-6 Doniphan Drive, Fort Leavenworth, Kansas, is a Captain in the Medical Corp of the U. S. Army, stationed at Fort Leavenworth, where he is acting Chief of Obstetrics and Gynecology. His wife, Joyce, and their three sons are enjoying their stay in Kansas.

1961

DR. LEWIS G. ANTHONY, P.O. Box 179, TAMC, APO 96438, San Francisco, Calif., is a resident in Internal Medicine at the U. S. Army General Hospital in Honolulu, Hawaii.

DR. JOHN V. BENNETT, Hospital of the University of Washington, Seattle, Wash., will be entering the Public Health Service in July as an Epidemic Intelligence Officer with the C.D.C.

DR. SAMUEL B. CHYATTE, 4049 Selfridge Parkway, Cleveland, Ohio, is Chief Resident in Physical Medicine at Highland View Hospital in Cleveland. Following residency, Dr. Chyatte plans to do one to two years of basic research and part-time clinical work. Dr. and Mrs. Chyatte have three children.

DR. JOSEPH J. CIROTTI, Maple Glen Professional Center, Welsh and Norristown Roads, Maple Glen, Pa., writes, "I interned at York Hospital, York, Pa., after graduating from Jeff. It was a fine year and I am sure you know of the excellent program they have. BILL SHUE, CAL COLARUSSO, and SAM CHYATTE were fellow classmates,

who also interned there. Incidentally, Bill is taking his surgical residency there; Cal is at Albert Einstein in Pediatric Psychiatry; and Sam is at Highland View in Cleveland.

"I served a two-year residency in Pediatrics at the Children's Hospital of Washington, D. C. Since completing my residency, I have opened up my own office for the private practice of Pediatrics in Maple Glen, which is about three miles west of Willow Grove and three miles north of Ambler. I am on the staff of Chestnut Hill and Abington Hospitals.

"As for my family, Ethel and I now have four children. We left Jeff with Jeanne, who is now 3½. We added Daniel, 2½, and a set of twins, Carolyn and Marcia, 15 months."

DR. JACOB J. COHEN, Staten Island Hospital, Staten Island, N. Y., is in his first year of surgical residency. Dr. Cohen recently returned from Alaska.

DR. RICHARD L. EDDY, 193 Maple St., Needham, Mass., writes, "We plan on remaining in the Boston environment for an additional three years—one more year at The Lahey Clinic in Internal Medicine and two subsequent years in the subspecialty of Hematology at the Peter Bent Brigham Hospital (tentative)."

DR. E. STEPHEN EMANUEL, 2649 Daphne Rd., Philadelphia, Pa., is the proud father of a new daughter, Julie Ann, born on December 10. Dr. Emanuel is now a resident in Obstetrics and Gynecology at Albert Einstein Medical Center. He and his wife have just returned from a two-year stint in the Navy in San Diego, California, where his wife was a researcher at the Salk Institute. The new baby is the granddaughter of DR. MILTON B. EMANUEL of the Class of 1919.

DR. DAVID J. GRAUBARD, 1800 E. 105th St., Cleveland, Ohio, is a resident in Orthopedics at Mt. Sinai Hospital in Cleveland. Dr. Graubard reports that he traveled to California this past summer

where he found excellent opportunities.

DR. WARREN A. KATZ, Mt. Sinai Hospital, Dept. of Internal Medicine, New York, N.Y., writes, "After completing my residency in Medicine at Mount Sinai Hospital, I plan to do research in Connective Tissue diseases. Perhaps after that we'll return to Philadelphia."

DR. CARL P. KESSLER, U.S.N. Air Development Sq. 6, U.S.N. Air Station, Quonset Point, Rhode Island, writes, "I am a U.S. Navy Flight Surgeon attached to Air Development Squadron Six which deploys each year to fly the North and South Pole. I am writing this letter at my dispensary located at Williams Field, Antarctica, in the beautiful, sub-zero sunny Southland of the world, 50 miles from a 13,500 foot active volcano, 2200 miles south of New Zealand, and 12,000 miles from Philadelphia, where the sun shines 24 hours a day at this time of year. This has been quite an experience in that in my two years of practicing medicine with this squadron, I have been the first flight surgeon to practice cold weather medicine in both continents of the Arctic and Antarctica, and being able to fly in our C-130 ski-equipped Hercules turbo-prop transports over a terrain equivalent in area to the U. S. and Mexico combined. I will be returning to my family of wife and three children within the next three months, when I will be separated from this environment and transferred to the U. S. Navy Medical Center at Bethesda to start my orthopedic surgery residency in July of 1965."

DR. DAVID W. KNEPLEY, 4-1 Bloomfield Ave., Drexelbrook, Drexel Hill, Pa., 19026, is completing his third year of residency in Internal Medicine at the University of Pennsylvania. As of July 1st he will be a resident in Gastroenterology at Graduate Hospital. Dr. and Mrs. Knepley have two sons, aged three and 17 months.

DR. JAMES A. LEHMAN, JR., St. Luke's Hospital, 11311 Shaker Blvd., Cleveland, Ohio, writes, "I

am a third year resident in general surgery. I have a fellowship this year from the American Cancer Institute and I am working on a paper on malignant melanomas. I have decided to go into plastic surgery and this will require two more years after I finish the Army. I have been playing squash in my spare time and am now playing for a team here in Cleveland."

DR. RICHARD M. MONIHAN, U. S. Naval Hospital, Memphis, Tenn., writes, "I have just returned from two years duty with the Navy near Manila, Republic of Philippines, where my boss was LCOR. EDWARD SALISBURY ('54). My wife and I were fortunate in being able to travel together extensively throughout the Philippines, Japan, Taiwan, Hong Kong, Saigon, and Bangkok. We found great respect for American medicine and the American way of life, wherever we traveled, especially among the simple people; although the editorial writers in many countries often sound a different note which too often finds its way back to our news media. At the grass roots level, Asians know and have confidence in American basic honesty to a much greater extent than I had anticipated.

"I will begin a surgical residency at the Pennsylvania Hospital in July and plan to complete my training in either Thoracic or Pediatric surgery thereafter. I ran into ELLIOTT PERLIN in Japan and ENRIQUE VASSALLO in Okinawa."

DR. JEROME NITZBERG, Edison Medical Group, Edison, N. J., is a general practitioner with the Edison Medical Group, which he joined in July, 1964,

DR. PAUL G. PENTZ, 42 Kenneth Dr., Glastonbury, Conn., is in his first year of psychiatric residency at The Institute of Living in Hartford and is enjoying it very much.

DR. WILLIAM B. PRATT, 136 Concord Circle, King of Prussia, Pa., is in his third year of an Orthopedic Residency at The Reading Hospital, Reading, Pa.

DR. JACK C. SABO, 222 Lenox Rd., Brooklyn, N. Y., is in his third year of surgical residency at Kings County Hospital in Brooklyn. Dr. and Mrs. Sabo have two children—Stephen, 4, and Robert, one.

DR. HAROLD C. SHEAFFER, 315 Brettonwood Dr., San Antonio, Texas, writes, "I'm beginning my third year in a medical residency here at Brooke and am enjoying it very much. Next tour to be at Aberdeen Proving Grounds in Maryland. We have three children (all girls) oldest of which is to start first grade next September."

DR. FRANK SILVER, 9006 Ashton Rd., Philadelphia, Pa., writes that he will finish his residency in Obstetrics and Gynecology at Episcopal Hospital this year and plans to practice in the northeast section of Philadelphia.

DR. RAYMOND L. SPHAR, JR., 1520 Spruce St., Philadelphia, Pa., 19102, writes, "Since July, 1964, I have been assigned to the commissioning crew of the nuclear submarine *U.S.S. Haddo* (SSN 604) to administer the organization of its medical department and to coordinate the training of the crew in radiation protection. I accompanied the ship on SEG trials in September and December and, as a collateral duty, was responsible for the commissioning ceremony on December 16. Following a shake-down cruise to the Caribbean, I expect assignment to a Polaris submarine in the spring."

DR. HARLAN D. SPONAUGLE, 35 P N.A.S., Navy #115, FPO New York, N. Y., writes, "I have been serving as a Naval Flight Surgeon at Guantanamo Bay, Cuba, for the past 20 months. My wife and I enjoy the tropical Caribbean climate very much. We have two children, Susan, 2, and Patrick, 6 months. After leaving Cuba this summer, I am going to San Diego, California, to begin a residency in Ophthalmology."

DR. WILLIAM S. TAYLOR, Fitzsimons General Hospital, Denver,

Colo., recently began a residency in Obstetrics and Gynecology, following which Dr. and Mrs. Taylor look forward to a three-year overseas tour of duty before returning to civilian life. Dr. Taylor reports that he has been doing a lot of skiing and enjoying the historic west.

DR. DENNIS M. WADLER, 1835 Johnston St., Philadelphia, Pa., is presently completing his two-year tour of duty with the U. S. Army. He will return to his general surgery residency at the New York Veterans' Administration Hospital in July.

DR. RICHARD C. WAMSLEY, USAF Hospital, Box 112, APO San Francisco, Calif., writes, "I am presently at Tachikawa Air Base in Japan enjoying a two-year tour with my wife, Pamela, whom I married on June 27, 1964. I am practicing Pediatrics. With me is ROBERT MC-LAUGHLIN, also at Tachikawa, and stationed nearby at Yokota is BARRY KOTLER."

1962

DR. CHARLES J. BANNON, Misericordia Hospital, 54th and Cedar Ave., Philadelphia, Pa., is presently in his second year of Surgical Residency. In addition to their son, Jerry, the Bannons now have a one-year-old daughter.

DR. WILLIAM L. DENNISON, JR., RFD #3, Box 379, Gales Ferry, Conn., recently returned from sea, where he was stationed on the *USS Abraham Lincoln*, a Polaris submarine. He spent a month in Scotland, visiting all the tourist spots and places of interest in Edinburgh and Glasgow. Dr. Dennison comments, "Two months at sea has its dull moments but it's amazing what psychological experiments one can dream up with 140 caged guinea pigs."

DR. ALAN R. FREEDMAN, 7212 Hav-
erford Ave., Philadelphia, Pa., is

in his second year of Pediatric residency at Children's Hospital of Philadelphia. After June 1965 Dr. Freedman will be serving with the U. S. Air Force.

DR. STEPHEN GOSIN, 8633 Thouron Ave., Philadelphia, Pa., has a Research Fellowship from the Pennsylvania Heart Association and is carrying out his research in the Department of Surgery at Jefferson.

DR. WILLIAM G. GOTTFRIED, Great Ormand St. Hospital, London, England, is in his second year of residency in Pediatrics. He will complete his training in England in June.

DR. PETER HAYNICZ, MSTs PAC, Fort Mason, San Francisco, Calif., is in the Navy and presently attached to M.S.T.S. Pacific area out of San Francisco. He plans to make several cruises to the Orient. He has spent one year on a ship out of Norfolk, Va., and has made several Caribbean cruises and a Mediterranean cruise. He plans to return to Jefferson in July 1965.

DR. JOHN E. HILLIG, JR., 200 Dev-
ereaux St., Philadelphia, Pa., is in his second year of residency in Obstetrics and Gynecology at Jefferson.

DR. JOSEPH HONIGMAN, 3210 Denfeld Place, Philadelphia, Pa., is taking a residency in Dermatology at the Philadelphia Naval Hospital. He was recently elected a Vice President of the Phi Lambda Kappa Alumni Club of Philadelphia.

DR. JAMES P. MARVEL, 1667-B Cedar St., Fort Dix, N. J., is presently with the Orthopedic Service at Fort Dix. Dr. Marvel reports that he is eager to return to Jeff to complete his residency. Dr. and Mrs. Marvel have a 19-months-old daughter, Jeanne.

DR. SHELDON L. MORRIS, Box 185, Williams AFB, Arizona, plans to

return to Philadelphia for residency in Ophthalmology when he has completed his tour of duty in the Air Force.

DR. JACOB A. ORBOCK, 2604 S. 4th St., Steelton, Pa., is currently serving on the general surgical staff at Valley Forge General Hospital after one year in Korea. He plans to begin a medical residency after he is discharged from the service.

DR. ALFRED T. PEPINO, c/o 703 N. 64th St., Philadelphia, Pa., is serving in Japan at a Marine Corps Air Station.

DR. JERALD M. ROSENBAUM, 6425 Bellaire Drive, New Orleans, La., is with the Department of Pathology at Louisiana State University.

DR. A. CARL SEGAL, 10401 Royalton Terr., Silver Spring, Md., reports that he is enjoying the Washington, D. C., area. Dr. Segal is presently taking a residency in Psychiatry at Walter Reed Hospital.

DR. JOSEPH W. SOKOLOWSKI, JR., 2301 Genesee St., Utica, N. Y., is a resident in Internal Medicine at the U. S. Naval Hospital in St. Albans, N. Y.

DR. BURTON E. WEISSMAN, 1467 La Lomai, Glendale, Arizona, and Mrs. Weissman now have a son and daughter. Dr. Weissman will return to Temple Medical Center in 1965 for a residency in ENT.

1963

DR. HARRY G. ANRODE, East 3517 15th St., Spokane, Wash., writes, "Our family enjoys the beauty and climate of the northwest very much. I am presently on the psychiatric staff of Washington's Eastern State Hospital near Spokane. As of September 1, 1965, however, I will be associated with two local men doing general practice. Our new clinic building is now being constructed in the Spokane suburbs."

DR. RICHARD U. DELP, 805 Karen Court, Apt. 204, Laurel, Md., is presently in the Army located at Fort George G. Meade, Maryland, working in the medical center at the National Security Agency.

DR. FRANCIS T. FITZPATRICK, 1053 E. Pelelio Dr., Tarawa Terrace, N. C., is currently doing Pediatrics at the U. S. Naval Hospital at Camp Lejeune, N. C.

DR. LINFORD K. GEHMAN, St. Luke's Hospital, 801 Ostrum St., Bethlehem, Pa., is currently a resident in Surgery at St. Luke's.

DR. DAVID E. GLOW, Public Health Service Indian Hospital, P. O. Box 1368, Yuma, Arizona, is Medical Officer in charge of the Public Health Service Indian Hospital serving 2500 Quechan and Cocopah Indians.

DR. JOSEPH C. HOHL, 430 Oaklawn Ave., Apt. D, Chula Vista, Calif., was married in February, 1964, to a former Jeff nurse, Teresa M. Figueiredo, who gave birth recently to a baby boy. Dr. Hohl is stationed at North Island, San Diego, California.

DR. BRUCE K. LEINWEBER, 938 D West Godfrey Ave., Philadelphia, Pa., is a resident in Obstetrics and Gynecology at Albert Einstein Medical Center. Dr. and Mrs. Leinweber have one daughter, Cynthia Rae, born in March, 1964.

DR. SANTO LONGO, 425 Hoffnagle St., Philadelphia, Pa., is working this year on a national American Cancer Society fellowship at Pennsylvania Hospital where he is a resident in Pathology. Dr. Longo spent two years in the U. S. Air Force as a captain, receiving an outstanding unit citation. He and Mrs. Longo, a serologist, have two children.

DR. DONALD E. SHEARER, 5623 Sanger Ave., Hamlet West, Apt. 10, Alexandria, Va., is presently serving in the U.S. Army as a Captain, stationed at Fort Meyer, Va. He

plans to enter general practice in Williamsport, Pa., in 1966.

DR. CHARLES R. WERMUTH, 1426 S. Alaska Ave., Werner Park, Ft. Campbell, Ky., is presently serving in the Airborne Division of the U.S. Army.

DR. MELVIN YUDIS, 1416 Greeby St., Phila., Pa., is a first year resident in Internal Medicine at Hahnemann Hospital.

DR. ROBERT ZAVOD, 15th Med. Battalion, APO San Francisco, Calif., is serving in Korea with the U. S. Army and is scheduled to return to the U. S. in August.

1964

DR. JAMES C. BARTON, Eastern Maine Gen. Hospital, 489 State St., Bangor, Maine, writes, "This winter in Maine was mild and brought Anne and me a mild mannered little girl, 7 lbs., 12 ounces, whom we named Elisabeth Ruth. She was born January 11."

DR. DONALD F. EIPPER, Akron General Hospital, 400 Wabash Ave., Akron, Ohio, writes that he plans to remain at the Akron General Hospital for a medical residency.

DR. ALAN B. LEVY, Albert Einstein Medical Center, York and Tabor Rds., Philadelphia, Pa., will begin a residency in Psychiatry in July at the University of Cincinnati.

DR. ELI O. MELTZER, Michael Reese Hospital and Medical Center, 2839 S. Ellis St., Chicago, Ill., is a mixed Pediatric Intern at Michael Reese. He will begin his Pediatric residency in July 1965 at St. Christopher's Hospital.

DR. STANLEY J. YODER, Geisinger Medical Center, Danville, Pa., has been appointed to active duty in the U.S.P.H.S. as of July 1, 1965. He will be assigned to the Indian Health Service, probably in Anchorage, Alaska.

ENGAGEMENTS

1957

DR. ANTHONY C. GIGLIOTTI, Jr., to Mary Ann Mullaney.

1960

DR. JOHN GALGON to Catherine L. Tiernan.

1962

DR. WILLIAM LAWRENCE DREW to Anne Sheedy.

1963

DR. HERBERT DALE KREIDER to Joan Kay Young.

1964

DR. JAMES CONRAD HIRSCHY to Jill Spiller.

DR. RONALD JOSEPH HORVATH to Maureen Kathleen Mullen.

WEDDINGS

1923

DR. VICTOR ROYCE SYRACUSE to Violet Faith Squires, February 13, 1965.

BIRTHS

1953

A son, Bruce Randolph, to DR. AND MRS. ROBERT L. FRANK, April 1, 1965.

1955

A son, Andrew Reed, to DR.

AND MRS. J. HUBERT CONNER, September 12, 1964.

1956

A daughter, Fran Ellen, to DR. AND MRS. RONALD M. MELMED, January 26, 1965.

1957

A daughter, Gail Susan, to DR. AND MRS. CHARLES L. KNECHT, January 27, 1965.

A son, Eric Lowell, to DR. AND MRS. LOWELL D. MANN, November 3, 1964.

1958

A daughter, Elizabeth Ann, to DR. AND MRS. ROGER H. BRODKIN, April 25, 1963.

1960

A son, Andrew Michael, to DR. AND MRS. MYRON E. ROSENFELD, April 5, 1965.

1961

A daughter, Rebekah Anne, to DR. AND MRS. SAMUEL M. EPPLEY, January 1, 1965.

1963

A daughter to DR. AND MRS. MARSHALL T. BAGLEY, April 14, 1965.

1964

A son, Christopher, to DR. AND MRS. DAVID A. BRIAN, December 26, 1964.

Alumni Placement Bureau

Position Wanted

RESIDENT in Obstetrics and Gynecology at Boston City Hospital is interested in practicing Obstetrics and Gynecology in West Virginia, Maryland, southern Pennsylvania, eastern Ohio, or Virginia. He will complete his training in June 1966 and is seeking an association leading to a partnership or in a group practice in a town of 15,000 to 50,000.

Positions Available

A JEFFERSON graduate, Class of 1949, is seeking an associate obstetrician-gynecologist for his group practice in Alton, Illinois. This city is about 20 miles north of St. Louis, Missouri.

GENERAL practitioner needed to replace recently deceased physician in the small community of Catawissa (Columbia County), Pennsylvania. Excellent hospital facilities nearby. Opportunities for hunting, fishing, and swimming.

A SUBURBAN residential section adjacent to Binghamton, New York, has a group which needs two additional general practitioners. Hospital privileges are available in three nearby hospitals. A new doctor would receive a percentage of his gross business with a minimum of \$14,000 per year and an opportunity for partnership after one year.

JEFFERSON graduate in Northeast Philadelphia has an extremely active general practice including, office, laboratory, equipment, and attractive ranch home, which he wishes to rent or sell. He is leaving for federal employment.

A COMMUNITY of about 10,000 people near Camden, New Jersey, is in need of a physician. The nearest doctor is five miles away and he will not make house calls.

A SMALL community about 20 miles from Atlantic City, New Jersey, is in need of two general practitioners. There is a certainty of \$50.00 to \$100.00 per day.

THERE is a need for physicians in Las Vegas, Nevada. Any branch of medicine is wide open and specialists or general practitioners would be welcomed by the three Jefferson men who are presently located there.

HHEADQUARTER'S plant (12,000 employees) of major industry in Milwaukee needs staff physician to become Assistant to the Medical Director. Candidate should have strong interest in preventive and occupational medicine. Clinical and advisory duties, including pre-employment and special examinations. Minimal traumatic cases. Laboratory, x-ray facilities and related staff to assist. Applicant must be citizen and have good health. Hospital staff appointments available and other professional affiliations encouraged. Salary open.

THERE is an opening for a prison physician at a Philadelphia prison with a 20 hour work week (afternoons) at \$104. per week. There are paid vacations and sick leave.

Lost Alumni

Out of our total Alumni body of 6,634 we have current addresses for all but 32. We would like very much, however, to have addresses for *all* of our Alumni and for that reason we are again listing our "lost" members below in the hope that some of the classmates and friends may know of their whereabouts. If you do, and will drop us a line at the Alumni Office, 1025 Walnut St., Philadelphia 19107, we will be very grateful.

Some Interesting Jefferson Alumni

The following is the ninth in a series of portraits of "Some Interesting Jefferson Alumni" which was introduced in the August, 1963, issue and will continue to be presented in future issues of the ALUMNI BULLETIN. This material was compiled and written by Dr. Edward C. Britt, Class of 1933, and appeared in the 1940 CLINIC. That same year it was also published in "The Medical Searchlight." We are deeply indebted to Dr. Britt for his keen interest in Jefferson's historical heritage and for bringing this material to our attention. This month's portrait is of Dr. John Glasgow Kerr.

John Glasgow Kerr, M.D.

NOW WE reinvade the medical missionary field, finding the locale of our sketch in China instead of in Syria, where we left Dr. Van Dyck. Its subject, John Glasgow Kerr (1842-1901), was a classmate of Dowell's in 1847, and one of the most robust characters ever to receive a diploma from Jefferson. He and his wife left for China in 1853 on a sailing vessel of six hundred fifty tons, and arrived in Hong Kong after a voyage of six months.

He was placed in charge of the famous hospital of the Medical Missionary Society in Canton, a post he held for 40 years. Below is enumerated a record of his work:

Out-patients	740,324
In-patients	39,441
Surgical Operations	48,098
Operations for Vesical Calculus	1,234
Translations of Medical Works	34 volumes
Number of medical students trained	150
(among these was Dr. Sun Yat Sen, first President of the Republic of China)	

In 1897, Dr. Kerr was called to Peking to perform a serious operation on the United States Minister, His Excellency, Charles Denby. The diplomat had already gone to Europe for treatment which had not been successful. Dr. Kerr was seventy years old at that time and probably the world's foremost surgeon in vesical calculus. After nearly a year's delay, owing to difference of

opinion among physicians as to the exact nature of the malady, Dr. Kerr arrived in Peking and operated successfully upon Mr. Denby. He published in Chinese a materia medica, treatises on vaccination, skin diseases, symptomatology, and diseases of the eye. In 1898 he made his greatest contribution to Chinese medicine when he founded in Canton the first mental hospital in China.

DOCTOR,

Now is the time to get that

long-delayed physical examination

The Alumni Association is pleased to announce that the facilities of the Jefferson Medical College Hospital will again be available to Alumni for physical examinations and screening laboratory studies without charge.

Physical examinations will be conducted on June 8, 1965, in the Curtis Clinic.

Send reservation care of:

DR. JOHN N. LINDQUIST
